## BIG NAVAL BATTLE DESPERATE FIGHTING ON BOTH COASTS GOING ON IN EAST, IS RUSSIAN VICTORY WEST AND SOUTH

MEAGER DISPATCHES INDICATE THAT GERMAN BATTLESHIPS HAVE RETURNED TO KIEL BADLY BATTERED AND THAT MINE LAYER WAS LOST.

SUDDEN RECURRENCE OF HEAVY ARTILLERY FIRE BY GERMANS AT MANY POINTS IN FRANCE REPORTED—THE TEUTONIC ADVANCE CONTINUES.

## ATTEMPTED LANDING REPULSED TRIBUTE TO TURKS' BRAVERY

Eight Teutonic Army Corps Said to Have Been Concentrated at Riga and in Shavli Region Awaiting Results—Torpedo Boat and Madgeburg Cruiser Also Reported Sunk.

British Munitions Measure Passed, Giving Lloyd-George Wide Powers. People of Great Britain Said to Be Just Beginning to Realize Seriousness of Situation.

London, July 2.—"A naval action occurred this morning off the east coast of the Island of Gotland," says Reuter's Stockholm correspondent. "The German mine layer Albatross was chased by four Russian cruisers and ran aground to escape capture. Twenty-one of the mine layer's crew were killed and twenty-seven wounded."

The German battleship Wittelsbach, which is damaged and a battleship of the Kaiser class, with many shots under the water line from the battle in the Baltic, have returned to Kiel.

Reuter's Copenhagen correspondent says a message from Gotland tells of a naval battle off the east coast of that island. Gunfire was heard last night and at 6:30 o'clock this morning a naval action was observed from Ljuga harbor and later warships steamed north. At 10 o'clock four cruisers were seen closely engaged near land. Later a German torpedo boat with many wounded arrived at Katthammarsvik, on the east coast of Gotland.

Reuter's Stockholm correspondent says the Swedish minister to Petrograd has been instructed to protest against the violation of Swedish neutrality involved by Russian warships firing on German warships within Swedish territorial waters.

A division of Swedish torpedo boat destroyers has been sent to intern the German mine layer Albatross. According to the Stockholm Telegraph correspondent, the Albatross went ashore at Katthammarsvik, near Katthammarsvik. Twenty-one members of the mine layer's crew were killed and seventy-one wounded, the survivors being landed at Katthammarsvik. The engagement occurred between Oestergarns and Farsund when the Russians attacked Albatross. The German Baltic flotilla came almost immediately to the mine layer's assistance and after a heavy exchange of gunfire, the Russians retired slowly northward.

First Lieutenant Loeben and twenty-six members of the crew of the Albatross were buried in the cemetery at Oestergarns, according to a Reuter Stockholm dispatch. The wounded, including two lieutenants, were taken to the village of Rona in the central part of Gotland. The survivors among the ship's crew numbered 225, are being guarded, part on board the mine layer and part on land.

An official statement issued by the Russian war office on July 1 told of an attempt by German warships to bombard the Port of Windau, in Lithuania, and land troops. This attempt was repulsed. A message from the port across the Baltic from Gotland Island.

Copenhagen, July 3, via London, 2:15 a. m.—The Politiken's Petrograd correspondent states that it is reported that not only a German torpedo boat sunk at Windau, but a cruiser of the Magdeburg type also was lost.

In preparation for an advance north supported by a German fleet, the Politiken's Petrograd correspondent states that eight German army corps were

London, July 2.—The sudden recurrence of heavy artillery fire by the Germans at many points in France is a marked feature of the fighting on the western front but in the meantime the Austro-German advance in Galicia and in Poland is unchecked, and the Teutons have shown no disposition to diminish the intensity of their eastern offensive.

The Polish fortress of Zamosc has been captured and progress in other sectors of strategic importance in the east is claimed by Berlin. For weeks it has been the same story in this theater of war—an Austro-German rush, a Russian retreat—and the end is not in sight.

There has been during the week, no official news whatever from the British front in Flanders but General Sir Ian Hamilton, commanding the allied land forces at the Dardanelles, in his second official dispatch of the week records the repulse of a vicious counter-attack by the Turks who were bent on recovering the lost ground south of the fortified hill of Achi Baba, and the strong position at Kirith, which the British have for some time been attempting to envelop.

The British forged forward last Monday and the following day the Turks, after sapping and mining, launched a counter-stroke with the bayonet. This was crushed while the French forces operating on the right in Kereves Sere valley toward the east coast of Gallipoli advanced and consolidated the ground won the latter part of June. The distances are not stated.

Despite the hard fighting ever since the landing on April 25, the Franco-British expedition only lately has achieved anything notable toward strengthening its hold on the tip of the Gallipoli peninsula. Archi Baba, the small Gibraltar, bristling with machine guns, surrounded by barbed wire and terraced with trenches. This is the reason why any allied progress is hailed with great satisfaction in England.

It is interesting to note the tributes to the Turkish bravery and even gallantly paid in almost every dispatch about a few months ago the attempt on the Dardanelles. At no time during the peninsula fighting have the Turks been accused of atrocities.

The munitions measure, giving David Lloyd-George, minister of munitions, wide power to whip up the ammunition supply, passed the house of lords today and will be a statute when the king affixes his signature.

Throughout the United Kingdom that the people only now, after nearly a year, fully sense the seriousness of the war. Only a few months ago the war was "business as usual." Theater patronage was undiminished and the restaurant trade normal. The cabinet ministers are now requiring the necessity of the most rigid economy by individuals and school children are being besought to invest in the war loan. The newspapers daily are carrying full page advertisements of the war. The Teutonic advance in Galicia and the slowness of the Dardanelles operations and the failure of the allies to inaugurate the much discussed offensive in the west are responsibility for this change in public demeanor.

## SUMMARY OF WAR

Heavy fighting in the Dardanelles during which the French captured a Turkish redoubt of six lines of trenches, the recurrence of heavy artillery fire by the Germans at many points in France, the general retreat of the Russians along the Gnila Lipa and the naval action off the east coast of the Island of Gotland, are among the important developments of the war as recounted in various official statements and messages from war correspondents.

The latest French and British official statements dealing with the operations in the Dardanelles indicate that the French troops now occupy a strong system of entrenchments in severe fighting on the morning of June 30. According to both statements, the Turks lost heavily in this engagement and in a series of attacks against the British which were repulsed.

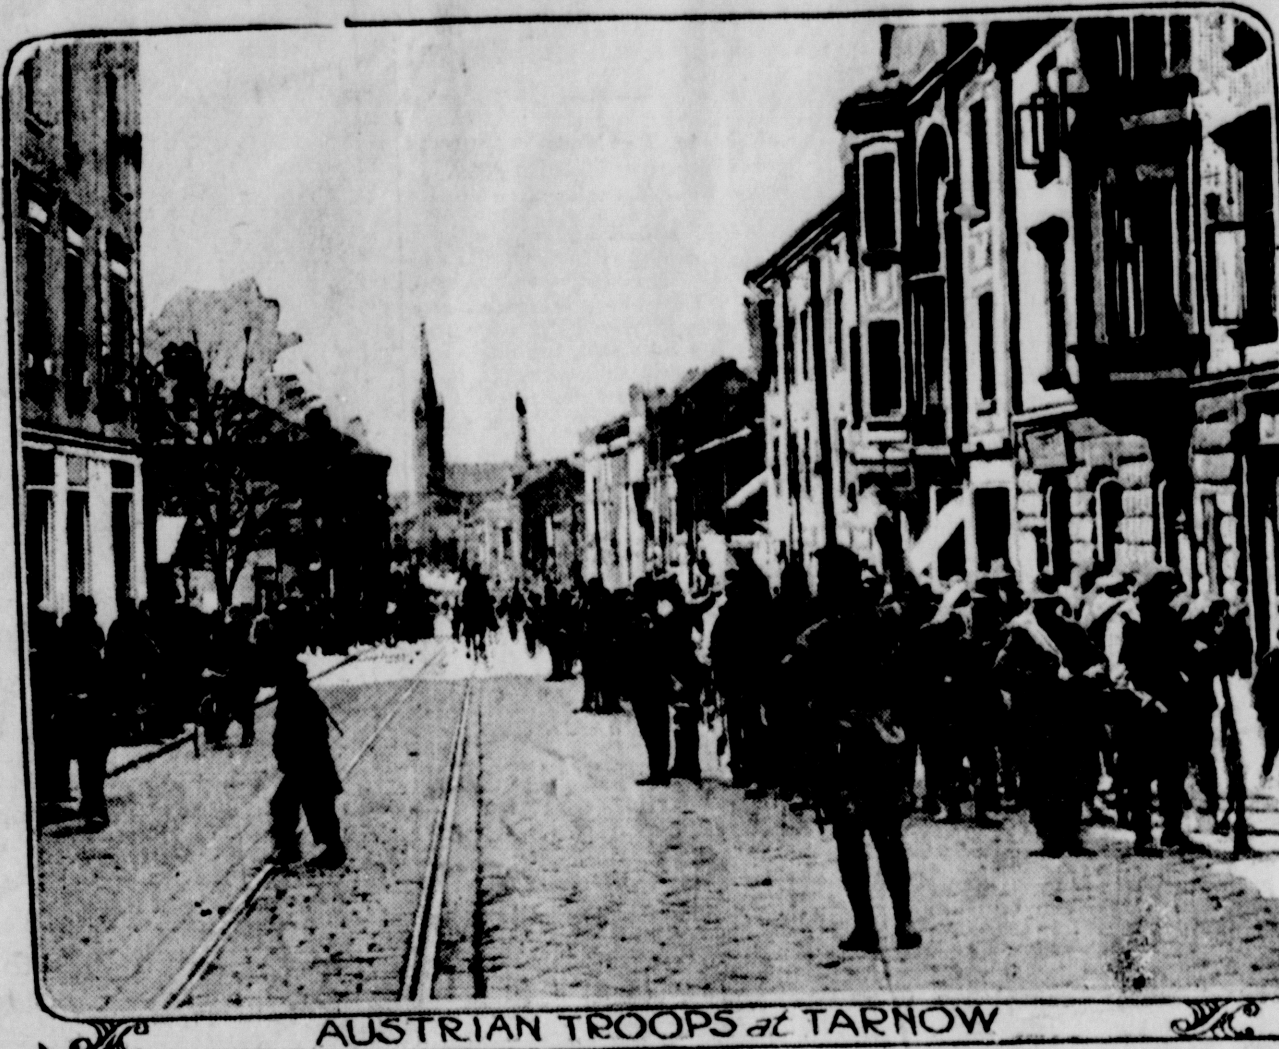

Dispatches from Stockholm and Copenhagen give meager reports of a naval engagement in the Baltic sea off the east coast of the Island of Gotland. Several warships are said to have been engaged. A message from Copenhagen states that the German battleship Wittelsbach, which was damaged in the action and a battleship of the Kaiser class, with many shots under her waterline, have returned to Kiel. Another report of the German mine layer Albatross was chased by four Russian cruisers and ran aground to escape capture. Twenty-one of the mine layer's crew were killed and twenty-seven wounded. It is stated that a German torpedo boat has ar-

rived at Katthammarsvik, on the east coast of Gotland, with many wounded. The Austro-German advance in Galicia and in Poland is unchecked. The Polish fortress of Zamosc and claim progress in other sectors of the eastern front. The Austro-German forces have reached the Russian positions at Krasnik, in southern Russian Poland, according to Berlin. In Galicia after storming the heights southeast of Bukaczowice, north of Halicz, the Russians along the entire front from the district of Maryampol to just north of Przylow have been obliged to retreat and are being pursued by the Teutonic troops.

In the western theater the French admit the success of a German movement in the Vosges to gain a foothold in their works on Hilgenfirst, but claim that through a counter-attack all the positions were recaptured. The Germans are continuing to shell these positions violently. A Berlin statement says that northward of Paris, the Germans advanced by storm over a front three miles long and between 200 and 300 yards wide.

A news dispatch says a British submarine in the Sea of Marmora, Number 42, which was full of troops. The British house of lords has passed the munitions bill which gives David Lloyd-George, minister of munitions, wide power in handling the ammunition supply situation. The measure will become a law when the king signs it.

## Austrian Troops at Tarnow on Their Way to Meet Russian Force in Galicia

AUSTRIAN TROOPS AT TARNOW  
The accompanying illustration shows Austrian troops in the city of Tarnow, in Galicia. The soldiers are on their way to the front. This picture was taken a few days ago.

## PLANNING TO CARE FOR COTTON CROP

FEDERAL RESERVE BOARD TAKING PRECAUTIONS TO PREVENT DISTRESS.

W. P. G. Harding, Chairman, Writes Letter to Four Southern Banks Outlining Situation.

Washington, July 2.—The federal reserve board has decided to take every possible precaution to prevent a recurrence next fall of conditions such as confronted the South last year as a result of the unusually large cotton crop and the shutting off of European markets.

The board has appointed a committee with W. P. G. Harding as chairman, to determine the best way in which the coming crop may be taken care of. The board does not believe this year's crop will be more than 12,000,000 bales.

Mr. Harding has written to the agent of each of the four southern federal reserve banks, asking for information and expressing the belief that under present conditions, with large surplus reserves in the banks, there is every reason to expect the crop can be taken care of without difficulty. He also noted that the domestic demand for cotton is increasing.

Mr. Harding's letter follows: "The federal reserve board, realizing the possibility of a congestion of stocks of cotton this fall due to abnormal conditions in our export trade, desires full information regarding the facilities in your district for warehousing and financing the cotton crop, which would, under ordinary conditions, be exported. The board has, therefore, appointed a committee to study the question and gather data on the subject. The board feels that, in view of the large surplus reserves now held by the banks throughout the country, there should be no difficulty, so far as the financial ability of the country is concerned, in providing for necessary advances upon that part of the crop which will eventually be shipped abroad. It appears from data in hand that the demand from our domestic manufacturers for cotton goods is increasing and it seems to me occasion whatever for a depression in the price of raw cotton such as was experienced last fall. The committee believes that arrangements should be made to assure producers of cotton of the co-operation of merchants and bankers in the proper handling of the crop."

In this connection, attention is called to the estimate by the department of agriculture that the south now has a warehouse capacity of 9,664,000 bales. If proper use is made of this capacity and the Teutonic advance in Galicia, including both members and non-members of the federal reserve system, a gradual marketing of the crop will be entirely possible, and danger of repetition of last year's conditions will be averted.

The writer, as chairman of the board's committee, will be glad to have your views on this subject and is anxious to secure your co-operation in formulating plans to reassure and protect the farmers, merchants and others interested in our cotton growing industry."

Chicago, July 2.—Alfalfa as a remedy for indigestion and mental depression was recommended today by Dr. Alexander L. Blackwood of Chicago in describing experiments to the members of the American Institute of Homoeopathy.

"All the patients grew so hungry they scarcely could wait for their meals, and it was impossible to have the blues," he said. "It does not act as a stimulant in the same sense as liquor," he added, that physicians familiar with the remedy believe it to be a coming drug. The convention adjourned today.

## HUERTA MAY BE DEPORTED

Washington, July 2.—The United States government is determined that Gen. Victoriano Huerta, former Mexican dictator, shall not re-enter Mexico from American territory while the disturbance of the political or military situation in the southern republic.

By just what means General Huerta is to be held has not been determined, but agents of the department are keeping Huerta under surveillance and the military authorities on the border have been ordered to prevent him from crossing the international boundary line.

Some talk was heard today in the executive department about a possible deportation of Huerta to Spain, from which country he came to the United States.

Paris, July 2.—General Porfirio Diaz, former president of Mexico, died at 1 o'clock tonight. General Diaz's wife, Senora Carmen Romero Robio Diaz, and their son, Porfirio Diaz Jr., and the latter's wife, were at the bedside when he died.

General Diaz had been in failing health since reaching Europe in 1911 after his resignation as president of Mexico, following the successful Mexican revolution. Last fall he was ill at Biarritz, France. He consistently declined to comment on the passing phases of his illness.

Porfirio Diaz Jr. and his wife were hastily summoned and arrived at the bedside only a few moments before the end, which came at 7 o'clock tonight.

Colonel Diaz in announcing the death of his father said that he was unable to state the nature of the malady but expressed the opinion that a complication of diseases due to advanced age was the cause.

Two tragic circumstances marked Diaz' death. Colonel Porfirio Diaz Jr. has tried in vain to inform his sisters, Senora Ignacio de la Torre and Senora Rincon Gallardo, who are now in Mexico, of the death of their father and the fact that not one of those whom General Diaz raised up to be his assistants in governing Mexico and who prospered and grew rich in the shadow of his greatness, were with him when he died.

Jose Yves Del Limantour, former minister of finance, is in London; Francisco de la Barra, former provisional president of Mexico, and holder of other important positions, including the ambassadorship to the United States, and Guillermo de Landau, former governor of the federal district in Mexico, are in Biarritz, France. Scarcely anyone outside the family knew of the seriousness of General Diaz' illness or that he was in Paris.

General Diaz lived here in the greatest simplicity. No decision has yet been made concerning the disposition of the body or the date of the funeral.

Huerta Sends Condolences. El Paso, Tex., July 2.—General Huerta, who was selected by Porfirio Diaz to command the guard of soldiers that escorted him from his capital at Vera Cruz, when he capitulated to the revolution, sent a message of condolence to Mrs. Diaz tonight.

"My family, those sons of Mexico who are about me and I lament the news published in the papers today," Huerta committed errors, of course," he said, "but the good that he did entitled him to be classified as a great man. All Mexicans will come to realize that, and the Mexican people should bring his ashes home to rest in native soil."

Washington, July 2.—Senator Kern, majority leader of the senate, said today he believed a modified cloture rule would be the first measure adopted by the senate next session. He announced that the special committee on revision of the rules which was named on petition of 45 democrats that would prevent filibusters like the one opposed by defeat the ship purchase bill, was expected to be ready to report as soon as congress met.

## GEN. PORFIRIO DIAZ PASSES AWAY IN PARIS

FORMER PRESIDENT OF MEXICO DIES AT FRENCH CAPITAL. FUNERAL DATE NOT SET.

Only Wife, Son and Daughter-in-Law by Bedside—Condolence From Huerta.

Paris, July 2.—General Porfirio Diaz, former president of Mexico, died at 1 o'clock tonight. General Diaz's wife, Senora Carmen Romero Robio Diaz, and their son, Porfirio Diaz Jr., and the latter's wife, were at the bedside when he died.

General Diaz had been in failing health since reaching Europe in 1911 after his resignation as president of Mexico, following the successful Mexican revolution. Last fall he was ill at Biarritz, France. He consistently declined to comment on the passing phases of his illness.

Porfirio Diaz Jr. and his wife were hastily summoned and arrived at the bedside only a few moments before the end, which came at 7 o'clock tonight.

Colonel Diaz in announcing the death of his father said that he was unable to state the nature of the malady but expressed the opinion that a complication of diseases due to advanced age was the cause.

Two tragic circumstances marked Diaz' death. Colonel Porfirio Diaz Jr. has tried in vain to inform his sisters, Senora Ignacio de la Torre and Senora Rincon Gallardo, who are now in Mexico, of the death of their father and the fact that not one of those whom General Diaz raised up to be his assistants in governing Mexico and who prospered and grew rich in the shadow of his greatness, were with him when he died.

He announced that the special committee on revision of the rules which was named on petition of 45 democrats that would prevent filibusters like the one opposed by defeat the ship purchase bill, was expected to be ready to report as soon as congress met.

## Record Sugar Cargo Leaves New Orleans For Havre, France

New Orleans, July 2.—The British steamer Victoria de Larrinaga sailed today for Havre, France, with a cargo of 165,750 bags of granulated sugar, which is said to be the largest cargo of granulated sugar ever forwarded from this port. The shipment was valued at \$766,752.

## WEATHER

Voluntary Forecast.

Unsettled weather, probably showers, is predicted for today by Dr. I. Black, voluntary observer and official.

Local Readings.

Readings for the twenty-four hours ending at 7 o'clock last night: Maximum 92 at 2 p. m., minimum 75 at 5 a. m., barometer 29.82, humidity 57, wind passage 156 miles, fastest 12 miles an hour at 10:45 a. m.; rain, a trace.

Government Forecast.

Washington, July 2.—Forecast: West Texas—Fair Saturday and Sunday.

East Texas—Partly cloudy Saturday, not quite so warm in interior and south; Sunday fair.

## PART OF NATIONAL CAPITOL IS WRECKED BY EXPLOSION

Public Reception Room on East Side of Building a Mass of Ruins as Result of What is Believed to Have Perhaps Been an Attempt of Some Crank to Destroy the Edifice Where Nation's Laws Are Made.

## BYSTANDERS HEAR CRASH AT MIDNIGHT

Superintendent Wood Hurries to Scene and Obtains Expert on Explosives to Make Investigation—Fact is Established That Spontaneous Combustion in Pipes Was Not the Cause—Door Closed for Years is Blown Open.

Washington, June 2.—A tremendous explosion, believed to have been caused by some kind of bomb or infernal machine, wrecked the public reception room on the east side of the capitol shortly before midnight tonight. No one was injured.

Officers believe that the explosive was placed by a crank who desired to create a sensation. Visitors were allowed in the room during the day and a timed machine might have been left without attracting attention.

Superintendent Woods of the capitol building, summoned by panic-stricken watchmen, made a hurried investigation, then telephoned for an expert on explosives. Until the expert has made his report no official statement concerning the incident will be made public.

Part of the ceiling and side walls of the room were shaken down, a huge mirror and a crystal chandelier shattered, and the doors blown open. One of the doors led into the offices of the vice president and is said not to have been opened in forty years.

The building had been closed since and there was no one in it but the watchman and a telephone switchboard operator. Watchman Jones on the floor below at the east entrance said he was blown from his chair by the explosion.

The report could be heard for a mile and in a few minutes a crowd of excited people had gathered on the east plaza. In the meantime lighted candles were switched on and officials were rushing back and forth on two floors of the great building.

After the first rumors of a bomb, some of the investigators concluded that the blast had been caused by spontaneous combustion in a gas pipe. The sides of the wall were torn out, however, and all the pipes apparently were intact. There had been no gas fixtures on the east side since an explosion occurred there nearly twenty years ago.

A strong odor permeated the building, but none seemed able to detect it. Just what it was, no trace could be found of an exploded bomb nor anything else which might have caused the blast.

Superintendent Woods said he had examined and found that there was no damage other than in the immediate vicinity of the reception room.

While some officials thought the explosion was the work of an irresponsible person, others seriously suggested that it might have been perpetrated by a person desiring to demonstrate disapproval of some of the policies of the American government. It is apparent that there was no intent to destroy life, as it is generally known the room is empty at night.

Chinese Boycott Is Arousing Japan

Peking, July 3 (3:25 a. m.)—Owing to the seriousness of boycotts and because of the Chinese formation of patriotic societies, Eki Hiroki, Japanese minister to China on behalf of Japan, has repeatedly protested to the Japanese government. The Japanese minister is quoted as saying, according to unofficial Chinese informants, that the temper of the Japanese people is such that they will not permit any stronger measures against China.

David Dunn Electrocuted. Auburn, N. Y., July 2.—David Dunn, 34 years old, died in the electric chair today for the murder of Harry Edwards, an express agent in Cornhill, February, 1914.

Dunn shot Edwards in an effort to get money in the course of the struggle. He knocked down the receiver on the telephone. A telephone girl in her effort to learn why the receiver was down, discovered the murder and notified the police.

German Reply on Submarine Warfare Is Expected July 8

Cornish, N. H., July 2.—President Wilson today received official information from Washington that Germany's reply to the last American note on submarine warfare may be expected about July 8. In consequence he expects to return to Washington July 9 or 10, to consider the note with Secretary Lansing and other members of his cabinet.

Word came to the president from Washington today that officials there are not deeply disturbed over the less new facts develop in the official investigation now being conducted.

The question of selecting a man to succeed Secretary Lansing as secretary of the state department has been considered, but it is understood today that the president will not reach a final decision until he returns to Washington.

Former Governor Ballou, a member of the state senate, and a member of congress from Pennsylvania and now judge of the state court of claims, is expected to be among the men to whom the president will turn for advice.

## July Specials

In selecting a place to do your grocery buying in July, please bear in mind: We are the only firm in the city offering hourly automobile delivery service. The only firm, which, not only during the first few days of the month, but constantly advertise low prices. We are sole agents for Batavia goods and have the only establishment in the city at which it is possible to procure anything good to eat. While a comparison of the following quotations with those of other merchants, will readily convince you that we undersell.

## TEN THOUSAND TEX. FARMERS GET HELP

Reports From Various Sections Regarding Marvellous Earth Product.

Reports from the rural sections of Texas and other Southern states show that natural Vitalitas is proving as great a blessing on the farm as it is in the city. The following are merely samples:

"I moved to Texas right after the war, have been a sufferer of rheumatism, kidney and bladder trouble. I could not raise my arm above my head for a month at a time. My kidneys would cause me to get up from fifteen to twenty times at night. I have used three bottles of Vitalitas and have not had a pain from my rheumatism in two months. My kidneys do not bother me any more. I think Vitalitas is a most wonderful medicine." G. W. Morris, R. No. 4, Box 129, Austin, Tex.

"I moved to Travis county in '67; have been troubled with indigestion ten years; at times my stomach would swell up until it seemed like it would burst. I began on Vitalitas and after using four bottles I have no trouble to speak of. I take pleasure in telling the world what it has done for me." J. E. Jourdan, farmer, R. No. 2, Sprinkle, Tex.

Vitalitas is nature's greatest tonic and corrective and it should be in every home.

Get Vitalitas at Power-Kelly Drug Co. For sale by druggists generally.

## BIG NAVAL BATTLE OFF GOTHLAND COAST IS RUSSIAN VICTORY

CONTINUED FROM PAGE ONE.

concentrated at Riga, and in the Shavli region. The attack on Windau, the correspondent believes, was an evidence that this was the object of the German military and naval authorities.

The battleship Wittgenstein is of 11,830 tons displacement. Her complement in peace times is 650 officers and men. Her armament consists of four 9.4-inch and eighteen 6.4-inch guns. She was placed in service in 1902.

The battleships of the Kaiser class each have a displacement of 10,730 tons and a complement of 658 officers and men. The armament of this class consists of four 9.4-inch and fourteen 6.4-inch guns.

Vessels of the Magdeburg (Breslau) class have a displacement of 4,550 tons. They have a complement of 370 officers and men. They are armed with twelve 4.1-inch guns and two torpedo tubes.

## Thaw Case Adjourned 'Til Next Tuesday

New York, July 2.—The first witnesses to testify at the trial to determine the sanity of Harry K. Thaw, that his conduct was irrational, were put on the stand today by the state. They were two Canadian immigration officers, Frank McFadden and Henri Giroux, who took part in the forcible deportation of Thaw from Sherbrook, Que., into Vermont. They said Thaw became violent when told he was to be deported. Giroux described his conduct as that of a person "dangerously mad."

Two police officers who were on duty at the tenderloin police station while Thaw was detained there after his arrest, after killing Stanford White, gave testimony to support the state's contention that Thaw had a delusion on the subject of young girls. Court adjourned until Tuesday.

## Allies Need An Explosive Shell, Butler Declares

WILSON W. BUTLER

Wilson W. Butler, contracting engineer and vice president of the Canadian Steel Foundries Company Limited, and the Canadian Car and Foundry Company Limited, declares that the demand of the allies for an explosive shell. He says that a shell can't tear up a concrete bunker, trench, or an explosive shell can. The trench, he declares, is the red tape of the British war office. Mr. Butler said he went to Petrograd and obtained an order for 5,000,000 shells. The Russian order ever given out by the Russian war office. He was in Russia from April 15 to April 1. The cost of Russia's contract is \$83,000,000. Mr. Butler was asked how he was going to deliver the shells. He said his contract called only for their delivery at New York. Most of the shells will be made in Canada, but some will be made in the United States.

## More Weapons Seized Along Texas Border

El Paso, Texas, July 2.—Further seizures of weapons supposed to have been collected here for the revolutionary movement in Mexico were recorded today when the federal authorities raided premises said to be owned by Ike and Frank Alderete, co-defendants with Victoriano Huerta and three others, charged with conspiracy to violate United States neutrality. Today's booty was nine machine guns.

The fire in the Cumbre tunnel, which destroyed a train and caused the deaths of several Americans in the year ago, was recalled today when the United States military authorities released Maximo Castillo and Jose Quevedo, alleged leaders of the band which caused the tragedy. The men were promptly rearrested by immigration officers, who hold an order for their deportation to Mexico, but who are awaiting further instructions from Washington.

### Quiet at Cape Haitien.

Washington, July 2.—Quiet prevails at Cape Haitien and forces of the Haitian government are in undisputed control, according to a cablegram from the navy department today. Rear Admiral Caperton of the armored cruiser Washington, in Haitian waters.

## FOODS SHIPPED AT TORREY CLAIMS WORTH \$724,000,000 BECKER INNOCENT

SHARE OF UNITED STATES IN FEEDING WORLD SHOWN IN REPORT OF DEPARTMENT.

## WHEAT FORMS BIGGEST ITEM WEBBER DENIES LAWYER'S STORY

Big Increase Noted in Shipment of Beef—Value of Cotton Sold Abroad Far Below Normal.

Washington, July 2.—The share of the United States in feeding the world, a task vastly increased by the European war, was disclosed today in statistics of the department of commerce. Foodstuffs valued at \$724,000,000 were exported during the eleven months ending June 1. This was the principal factor in the nation's billion-dollar foreign trade balance.

The effect of the war is seen in the enormous increase in the value of foodstuffs compared with exports for the same eleven months, a year ago, when the total was \$443,000,000. Cotton exports were \$102,097,000, or 756,394 bales less than the previous year, but their value, \$360,370,000, showed a decrease of \$221,355,000.

Exports of cottonseed oil, extensively used as a foodstuff, amounted to \$19,905,000, an increase of \$6,643,000.

Wheat Biggest Item. Wheat formed the biggest item in foodstuffs sent abroad. In all 249,576,000 bushels were exported, an increase of 144,000,000 bushels. It was valued at \$219,903,000, showing an increase over the previous year of \$232,138,000.

Oats valued at \$51,665,000 were shipped, an increase of \$5,028,000. Flour showed the next largest increase with a value of \$87,650,000, or \$37,628,000 more than the previous period.

Corn exports were valued at \$34,542,000, an increase of \$28,551,000. Bacon exports were valued at \$41,294,000, or an increase of \$17,028,000.

Big Increase in Beef. There was a big increase in beef shipments. The value was: Fresh beef \$15,362,000, an increase of \$4,652,000; canned, \$10,708,000, an increase of \$10,244,000, and pickled beef \$3,004,000, an increase of \$883,000.

Ham and shoulders exported were valued at \$23,435,000, an increase of \$1,734,000. Lard exports amounted to \$48,317,000. The increase was small. A statement on the meat and dairy products trade issued today by the department of commerce said:

"Imports of meat and dairy products into the United States in the ten months preceding May 1, last, were three times the value of those for a like period two years ago, and seven times those of the entire fiscal year 1905. This movement first assumed a large proportion in the fiscal year 1914, following the transfer of meats to the free list. Very recent months, however, have reversed the upward trend, since February, March and April showing much smaller imports than in those months of last year or when compared with earlier months of the current fiscal year."

In the ten months ending with April, imports of meat and dairy products aggregated \$38,000,000 in value; meats representing two-thirds of the total.

Our imports of meats are mainly supplied by Argentina. Ten months of the fiscal year just closed brought 112,000,000 pounds of fresh beef and veal from Argentina and from 13,000,000 pounds each from Canada, Uruguay and Australia and the United Kingdom.

Exports Top Imports. "The United States still exports far more meats than it imports. Returns for ten months indicate the value of meat and dairy products exported this year will once more attain the \$200,000,000 level that marked the decade prior to 1909.

"A study of the official figures shows that while the imports have consisted chiefly of beef and mutton in the primary stages of preparation, the exports have included considerable quantities of bacon, hams, and canned and preserved meats and other meat products in a more or less advanced state.

"In fresh beef there is now a large movement both into and out of the country. The large outward movement, however, is a development of recent months. Over 25,000,000 pounds of fresh beef were exported in April and more than 100,000,000 pounds in the period from Aug. 1, 1914, when the European war began, to the end of April, 1915, while the aggregate for the three-year period ending June 20, 1914, was only 29,000,000 pounds.

Profit on Meats. "It is also apparent that the United States pays less for the meat it buys than it receives for those it sells. In 1905 we imported 8,500,000 pounds of fresh beef, valued at 94c a pound f. o. b. countries of origin. In 1906 some months we exported 25,500 pounds, valued at 14c a pound at the domestic ports of shipment.

"For the ten months ending with April, 1915, the imports and exports were 165,000,000 and 102,000,000 pounds respectively, valued at 94c a pound for imports and 12 1/2c a pound for the exports."

## Irish in British Army Now Said to Number 120,741

London, July 2.—John E. Redmond, leader of the Irish Nationalist party, speaking at Dublin Thursday night, said that up to the 16th of June 120,741 Irishmen had joined the army, according to a report of the Irish press. Redmond said that the Irish Nationalist party had been enlisted for the war.

## Most of Chicago's Lumber Yards Close

Chicago, July 2.—Forty-three of Chicago's largest lumber yards and sixty-five brick-making plants, closed today, will not make deliveries of any building materials until the strike of 16,000 carpenters is settled. The eleventh hour decision of the allied building construction and material interests to continue manufacturing operations, but not selling, placed a more optimistic aspect on the look-out.

H. T. MARSHALL SAYS BRIDGE WEBBER TOLD HIM BECKER WAS GUILTY OF CRIME.

## WHEAT FORMS BIGGEST ITEM WEBBER DENIES LAWYER'S STORY

Appeal is to Be Made to United States Supreme Court by W. Bourke Cockran.

New York, July 2.—Charles Becker, former New York police lieutenant, now under sentence of death for conspiring to kill Herman Rosenthal, had absolutely nothing to do with the murder, according to a statement made today by H. T. Marshall, an attorney. Mr. Marshall said the statement came from his client, Bridge Webber, one of the three self-confessed accomplices in the plot.

This followed closely upon the heels of a story that Sam Schepps, the gambler, upon whom the state relied during the first Becker trial to corroborate the testimony of Jack Rose, Harry Vallon and Bridge Webber, the three informers, "held the secret in the Becker case" and would tell Governor Whitman should the governor ask him to.

Mr. Marshall said he intends to go before Chief Judge Bartlett of the court of appeals who wrote the prevailing opinion denying Becker a new trial, and explain to him the facts as relating to Webber and also the statement from Martin T. Manton, counsel for Becker, that W. Bourke Cockran, his law partner, is going to make an appeal to the United States supreme court in Becker's behalf, basing it on the theory that the ex-police lieutenant was not convicted by due process of law.

Marshall made his statement regarding Webber while in the office of Manton.

"Webber," said Marshall, "told me as his counsel at the first trial that Becker had absolutely nothing to do with the murder of Rosenthal. Webber said he and the others were perjuring themselves in order to save their skins."

At the time Becker was convicted, Marshall said he then told Webber to get another lawyer and that from that time on he could not speak because of professional obligations.

Becker's innocence," the lawyer continued, "I would not have aligned myself with the lawyer in his defense at the second trial. I would never have entered the case had I not known that Bridge Webber was a liar. Becker was deliberately 'framed up' on by Webber, Harry Vallon, Jack Rose and Sam Schepps."

Marshall declared that while Webber was in the Tombs, he sent for Marshall and asked, "How bad does it look for me?" Marshall said he replied he thought the district attorney was anxious to obtain evidence against Becker.

Marshall said he had anything to do with the murder and that Webber replied: "No—but what am I to do?"

After that answer, Marshall said he told Webber to get another lawyer and that he had nothing to do with the murder.

Marshall declared professional ethics alone prevented him from going on the witness stand at the second trial and relating what Webber had told him.

Manton in making the announcement that W. Bourke Cockran, his law partner, is going to make an appeal to the United States supreme court, said the appeal will be based on newspaper articles published prior to the trial, the refusal of the application for a change of venue without a hearing and the extraordinary position of Governor Whitman at the present time since he was instrumental in convicting Becker and is now the only one in a position to save him from the electric chair.

Mr. Manton declined to discuss a report that Becker was prepared to make a story to the effect that six other men had been convicted in the Becker case, but he had collected while a police officer. He made it plain, however, that Becker was not so much to save himself as prevent others from falling into a situation similar to that which now faces him.

Webber Denies Story. Passaic, N. J., July 2.—Bridge Webber, at his home here tonight, denied that he had given H. T. Marshall, his former attorney, any information regarding ex-Police Lieutenant Charles Becker.

"I told my whole story at the two trials," said Webber, "and I am through with the whole thing."

## Striking Miners Parade at Joplin

Joplin, Mo., July 2.—Striking miners of the Joplin district resumed their parades through the business section late today after they had visited various mines in the morning. At a few of the properties the managers agreed to pay the wage scale adopted by the miners' organization according to strike leaders, and will resume operations tomorrow.

A report that miners in the north Oklahoma district are preparing to go on strike was received here today. It was said the Oklahoma strikers would begin a march to Joplin to participate in a local demonstration.

Archbishop Quigley Failing. Rochester, N. Y., July 2.—Archbishop Quigley of Chicago seemed to be failing physically today but mentally he was in a better condition than he has been since his death has been sought to be eminent. He was conscious all day.

## President and Col. House After Talk on European Situation

COLONEL HOUSE AND PRESIDENT WILSON  
PHOTO © 1915 BY AMERICAN PRESS ASSOCIATION

The accompanying photograph of President Wilson and Colonel E. M. House was taken at the summer home of the latter in Roslyn, N. Y., after the president and his long deferred conference on the European situation. Though no word of their conversation was divulged, it is quite generally understood that the president and his long deferred conference on the European situation. Though no word of their conversation was divulged, it is quite generally understood that the president and his long deferred conference on the European situation. Though no word of their conversation was divulged, it is quite generally understood that the president and his long deferred conference on the European situation.

## Applications Denied to Retire From Navy

Washington, July 3.—President Wilson has denied the application for voluntary retirement of twenty commanders and lieutenant commanders of the navy who sought to leave the active list under the law which permits such retirements on June 30 when promotions from the grade of junior lieutenant have been less than forty during the preceding year.

## No Further Report On Armenian Sinking

Washington, July 2.—The state department had not received, up to late today, any complete or comprehensive report concerning the destruction of the British steamer Armenian with a loss of several American lives. The department was understood to have been due to the garbling in transmission of a long report forwarded by Consul Armstrong at Bristol, who interviewed the survivors.

## Italians Occupy Tolmino Villages

Paris, July 3 (5:15 a. m.)—The Italians have occupied the villages of Tolmino on the Isonzo north of Gorizia, according to a Rome dispatch to the Herald. The Austrians still hold the border fortifications and are bombarding the villages. Italian heavy artillery has been brought up and mounted for use against the forts.

## Negro Hanged at Wharton

Houston, July 2.—At Wharton, Tex., at 1:48 p. m. today, Cornelius Jackson, negro, was hanged publicly for a large crowd, being executed for the murder of Asa Ray, an aged and prominent merchant of Wharton, last January. The murder occurred when the store of Ray was being robbed by Jackson and two other negroes. Alton Owens and Nathan Hughes Jackson's confession of the boy, who was not indicted, led to the death sentence for the murder of Asa Ray. Jackson and life terms in the penitentiary for the two other negroes. Jackson protested his innocence to the last.

## Dean Woodward Resigns

Fort Worth, Tex., July 2.—Announcement was made tonight of the resignation of Dean Comer M. Woodward, Texas Woman's College. Dr. Ed Jennings, former president of John Tarlton College, Stephenville, Texas, and at present president of the Texas university faculty, had been named as Dean Woodward's successor.

## Maximo Castillo Released

San Antonio, Tex., July 2.—Upon advice from the war department, General Funston, in charge of the southern department, has ordered the release of Maximo Castillo, the Mexican bandit, who blew up the Cumbre railway tunnel in Chihuahua in February, 1914, killing fifty-one people.

## RAISE INFERTILE EGGS.

Fertile Egg Great Source of Loss in Summer. It is conservatively estimated that there is an annual loss in eggs in this country of \$45,000,000. Practically all of this enormous loss is sustained by the farmers of this country, as it is on the general farms that the great bulk of eggs is produced. A very large part of this loss can be prevented by the production of infertile eggs, which are laid by hens that do not have a male bird with them. The male bird has no influence whatever on the number of eggs laid. There is, as soon as the hatching season is over, the male should be removed from the flock.

## THE AWKWARD AGE.

Many girls feel the "awkward age" very intensely and shrink from comparison with their smarter friends. It is a question of temperament and perhaps environment, and it is a time when the help and consideration of their elders is invaluable. Mothers have been heard to remark, "I don't know what to do with my girl. She is so careless about her clothes and is so fat and clumsy that it is useless trying to make her look nice."

## Silk Very Popular.

For several seasons past the cry has been heard early in the autumn or the spring. "This is to be a silk year." Probably the wish was father to the thought, and as a matter of fact, silk really has been growing in favor year by year until now it may be asserted with a fair degree of accuracy that this is a silk year.

## RAISE INFERTILE EGGS.

Fertile Egg Great Source of Loss in Summer. It is conservatively estimated that there is an annual loss in eggs in this country of \$45,000,000. Practically all of this enormous loss is sustained by the farmers of this country, as it is on the general farms that the great bulk of eggs is produced. A very large part of this loss can be prevented by the production of infertile eggs, which are laid by hens that do not have a male bird with them. The male bird has no influence whatever on the number of eggs laid. There is, as soon as the hatching season is over, the male should be removed from the flock.

## RAISE INFERTILE EGGS.

The greatest trouble from blood rings in eggs occurs in hot weather. Special care should be given to the gathering and storing of the eggs during the late spring and summer months. At these times the eggs should be gathered at least twice a day, placed in a room or cellar where the temperature does not rise above 70 degrees Fahrenheit, and marketed two or three times a week.

# HIPPODROME

WHERE WACO IS ENTERTAINED

LAST EVENTFUL TRIUMPHANT DAY

Thomas H. Ince is Master of the Screen.

**"THE REWARD"**

With Bessie Barriscale and Arthur Maude

Proves it Absolutely.

Motion Pictures' Master Stroke for Morality.

Admission 5c and 10c, or 8c in \$4 Books.

## HIPPODROME.

### "The Reward."

Much has been written of the chorus girls' smiles, and a lot has been said of the sorrow that lies behind her smile. No one knows the heartaches that she may feel though the smile appears sincere; that is, if the chorus girl in question is the right sort.

"The Reward," a Thomas H. Ince feature, is a Mutual Masterpicture with Bessie Barriscale and Arthur Maude showing at the Hippodrome yesterday and again today, which is an absorbing tale graphically portrayed of a chorus girl's struggle against poverty and the easiest way. It is the story of a girl who wanted to do right and of a man who dared her to do wrong, and who tried to prevail upon her to see the folly of her course.

The plotting and counter plotting, the heroism and final triumph depicted in "The Reward," has been pictured as only possible by Ince, the wizard of the screen.

Bessie Barriscale, whose exceptional interpretation in hard roles assigned her in "The Cup of Life" and "The Devil," together with her serious and refined beauty have made her one of the favorites in photoplay land. The typical adventuress is not the only role she has pictured, as evidenced in "The Reward," in which she appears in a character totally different. She has the rare faculty of being able to make convincing the woman who chooses the wrong path from mistaken motives or is drawn into evil by the crossing of circumstances. Miss Barriscale is small and girlish with heavily curling red-brown hair, a lustrous skin and big, expressive black eyes. Her exquisite beauty photographs strikingly. It is said that her throat is the most beautiful on the screen. Her work in Masterpictures has been that of an accomplished actress, and her refined personality generally enhances the exceptionally high quality of the plays in which she stars.

### "TWILIGHT SLEEP."

#### Lecture in Motion Picture Form.

The truth about "Twilight Sleep" is the subject of a lecture, illustrated with a set of motion pictures to be given at the Queen theater one day only, Wednesday, July 7, matinee and night.

The discourse has been prepared by Dr. Kurt E. Schlossing, an associate of Kronig and German professors who discovered "Twilight Sleep" at the Freiburg Frauenklinik, and where it is probably more extensively used than in any other maternity hospital in the world. Dr. Schlossing has been in America for the last year, and in that time has appeared in the majority of large cities, holding clinics before the medical men, teaching the technique of the German method.

It was while holding a clinic at the Flower hospital, New York city, that the Motherhood Educational Society arranged with him to prepare a lecture for a lay public and pose a set of motion pictures, depicting the progress of "twilight" from the first administration to the end of a mother's ordeal. With the fact of Dr. Schlossing di-

recting the motion photography and appearing in the pictures personally, the authenticity of the picture would seem to be guaranteed.

The lecturer will devote considerable time in answering any specific questions anyone cares to ask him regarding the painless method of childbirth, with the exception of advising where the treatment may be taken. It is not the purpose of the Motherhood Educational Society to commercialize any "Twilight Sleep" physician or any institution where the method is in use. It is the desire to acquaint American women with the true facts regarding the administration of the drug scopolomin and its effect on a patient. No one can afford to miss this great lecture. Two performances will be given in this city, the matinee being for women only, while the evening performance is for the general public.

## PERSONAL MENTION.

C. Harper of the Belton Journal was in Waco last night.

Dr. and Mrs. S. E. Ballard of Bell's Hill have returned from California.

J. E. Callahan, roadmaster of the Cotton Belt, was in the city yesterday.

J. T. Bowman, formerly secretary of Governor O. B. Colquitt, is in the city.

T. W. Lehmann, prominent lumber man of Corsicana, has been in the city the last few days on business.

D. J. Price, general passenger agent of the I. & G. N., was in the city yesterday from his headquarters in Houston.

Mr. and Mrs. J. R. Milam returned yesterday from a month's tour of the Pacific coast country, during which they visited the Panama-Pacific exposition at San Francisco.

Paul B. Leeper, formerly of Waco, was in the city yesterday on his first trip through this territory as representative of the Litcher-Moore lumber interests of Orange.

Mr. and Mrs. W. A. Lucas, 325 Park avenue, with their daughters, Misses Maurine, Merle and Eleanor, leave this morning for a month's outing at Aransas Pass. The trip will be made overland by automobile.

A. H. Mosely, advertising manager for the Texas Power and Light company, spent yesterday in the city. Mr. Mosely has just returned from the Chicago admen's convention and a trip to San Francisco. Mr. Mosely returned to his headquarters in Dallas last night.

Earl B. Smyth, cashier of the First National bank of Mart, passed through the city yesterday en route to Toronto, Can., where he will spend several weeks on a vacation with his sister and brother-in-law on a fishing and hunting expedition on the lakes. En route he will stop at Kansas City, St. Louis and Chicago.

Good Rain at Vernon. Vernon, Tex., July 2.—Rain began falling here this afternoon. Crops had needed moisture badly.

## B. C. NETTLES HEADS BOY SCOUT COUNCIL

SCOUT COURT IS ESTABLISHED AND T. A. CAUFIELD ELECTED FIRST CHIEF JUSTICE.

Committee Is Appointed to Take Charge of Extension Work and Forming of New Troops.

B. C. Nettles was elected president of the Boy Scout council last night, a scout court created with Thomas A. Caufield as chief justice and a committee appointed on troop extension work. The meeting was held in the Y. M. B. L. rooms and was presided over by President C. A. Machen.

The Boy Scout band opened the meeting with a concert and, in the absence of Director Charles Parker, the band was directed by Dink Hubby, one of the boys, who was highly complimented on the performance. Scout Commissioner Nat Hayes reported that the camp had been a great success and that a few dollars remained in the treasury, after the expenses had been paid.

The full quota of officers elected was as follows: B. C. Nettles, president; Mrs. Baker Hoskins, first vice president; C. H. Anderson, second vice president; H. E. Kipler, third vice president; A. L. Elliott, secretary; Charles Cullitt, assistant secretary; and Mrs. William Green, treasurer.

On account of the manner in which the movement was progressing in Waco, it was decided to organize a scout court, which is to establish rules for the boys, punish violations of the rules and settle disputes. The boys themselves are to see that the discipline is adhered to. Thomas A. Caufield was elected chief justice. Other members of the court, all boys, are Frank Frazier, Lester McGregor, La Baun Elliott, Hudson Bohannon, associate justices, and Warren Estes, clerk of the court.

To look after securing proper men to act as scoutmasters in the various schools and to act generally on the matter of extension, the following committee was appointed: A. L. Elliott, chairman; R. O. Stetter, A. R. Kier, Mr. Holbert, Tom Watkins and Walter Jenkins.

The retiring president, Mr. Machen, made a few remarks thanking the members of the council for their cooperation and pledging his loyal support in the future. Mr. Nettles said that he would do all in his power to see that the movement continued to advance as it had in the last year and Sol Hirschberg made a few remarks, praising the Boy Scout movement and promising to assist its advancement in every possible way.

## Postpone Muster of Machine Gun Co. to Wednesday Night

Owing to the length of time required for the inspection of company K last night, the new machine gun company of the Texas National guard was not mustered in last night by Maj. W. E. Jackson of Hillsboro, battalion commander. Major Jackson will return to the city Wednesday night, when the company will be mustered in. More than sixty men have enlisted in the new company.

Due to the fact that only two days' notice of the muster of company K for inspection was given, only 33 of the 65 members were present last night. Major Jackson praised the men on the condition of their equipment, but stated that a better showing in attendance would have to be made at the next semi-annual muster.

Commissioners as officers of the new machine gun company have been received by Will Torrence, captain; Floyd Crow, first lieutenant, and Jusse McLendon, second lieutenant. Newly enlisted men were put through their first drill by their officers last night, the drill consisting of marching, step, etc., no equipment having arrived yet. Major Jackson witnessed the drill and complimented the men on their progress.

## Many Hear Sermon On "Unbelief" By Rev. J. M. Dawson

Preaching on "Unbelief" as drawn from Isaiah 28:20, Rev. J. M. Dawson, pastor of the First Baptist church, sought the hearts of all the unsaved in the audience last night when he filled the tabernacle built back of the church. There will be no called prayer meetings today either by the ladies or the men, nor will there be any service tonight, as Saturday is given to a rest day that all may be present at the services on the Sabbath. The pastor expressed the hope that there might be the largest number at both services tomorrow since his coming here.

About seventy additions to the church have been made since the revival began three weeks ago and the ordinance of baptism will be tendered to a large number Sunday evening, directly after the sermon unless otherwise announced.

The duet, "I Am So Happy in Him," which was sung last Thursday evening by Prof. Evans and W. H. Payne, was so much enjoyed and appreciated and there were so many requests for its repetition that it was rendered again last night. In response to the invitation, two came forward.

## ITALY'S TELEGRAPH RULES.

All Messages Must Be Written in Plain English or French.

The Western Union Telegraph company announces that the Italian government, acting under Article 8 of the International Telegraph convention and Article 17 of the Radio Telegraphic convention, has decided on Italian lines and in Italian colonies only messages exclusively in plain language (English or French); that they will not handle messages without texts; that service instructions as reply paid, must be mentioned in full in the French language and not in the abbreviations admitted by the convention.

Inquiries concerning messages sent or received are not admitted. All messages are subject to censorship, and therefore at sender's risk. No claims for refund will be entertained. Secret language is admitted only in government messages between the Italian government, allies' governments, and neutral governments and their respective diplomatic missions. No private or government message from, to or in transit over the enemy's country is admitted on Italian lines. All Italian radio coast stations and colonial stations are closed for private service.

## SPECIALISTS STRIVE TO SAVE LIFE OF THE SULTAN OF TURKEY

SULTAN OF TURKEY

Noted German specialists have been called in to attend the sultan of Turkey, whose illness has grown worse in the past few days. Official circles in Berlin and Constantinople are alarmed at the sudden change for the worse in the condition of the Turkish ruler. Professor Israel, a noted German specialist, operated on the sultan several days ago for stone in the bladder.

## ONE-FOURTH OF CITY'S MONEY REMAINS UNSPENT

\$60,729 ON HAND FOR LAST QUARTER OF FISCAL YEAR ENDING OCTOBER 1.

With three months more of the fiscal year for which appropriations in the budget were made, the statement of the condition of the maintenance accounts of the various departments of the city government, presented at the commission meeting yesterday afternoon by City Secretary John C. Davis, shows that more than one-fourth of the budget remains unspent.

Eight of the fifteen funds provided in the budget have spent more than three-fourths of their appropriation. The tax collector, hospital and health and city hall funds are already overdrawn, all overdraws totalling \$253,463. The total budget for the fiscal year beginning October 1, 1915, was \$274,862. On July 1, \$60,729 remained to the credit of the city treasury.

Overdraws to the extent of \$50,000 are allowed in the city charter. Banks charge the city 6 per cent for overdraws. In order to take care of any overdraws which might occur before the close of the fiscal year, the city recently borrowed from New York bankers \$50,000, which has been deposited in the city depository and is drawing 3 per cent interest.

The condition of various city funds July 1 as shown in Secretary Davis' report yesterday was as follows:

Mayor and Board of Commissioners—	
Budget for fiscal year, Oct. 1, 1914 to Oct. 1, 1915.....	\$ 6,500.00

## Morrow St. Church Will Hold Revival

The Morrow Street Methodist church will start a revival service, beginning tomorrow morning at the 11 o'clock service. The pastor, Rev. W. H. Howard, will be assisted in the meeting by Rev. Humphrey Lee, a graduate of Howard Payne and of Trinity university, and well known as a revivalist. Rev. Mr. Lee will be here today and prepare for the services. He recently concluded a successful meeting at the Clay Street Methodist church.

The song services will be under the direction of Prof. Potocz, who has arranged quite a large choir and many special musical features will be given throughout the meeting.

## CITY NEWS BRIEFS.

A charge of burglary was filed in Justice J. J. Padgett's court against Eugene Franklin yesterday and one of winding and forgery against R. C. Hill in Justice J. J. Lester's court.

On account of the death of Mrs. J. K. Strecker Sr., the story telling hour at Baylor university this evening has been called off. Mrs. Strecker's son, John K. Strecker Jr., is curator of the Baylor museum.

The county school board met yesterday in the office of Prof. R. L. Abbott, county superintendent. The question of transfers and changing the grades of various schools occupied most of the time.

The Glorious Fourth will at least be noted by patriotic music in Waco. Prof. August Bettis and his municipal band will give a special program commemorative of the nation's birthday in Cameron park tomorrow afternoon from 4 to 6 o'clock and the general public is invited to attend.

The gospel theme of the Y. M. C. A. will have charge of the services of the North Waco Christian church at the evening service, which meets at 8 o'clock. The speakers will be J. E. Kuykendall and D. P. Wallace. Special music will be rendered by the church choir and the Y. M. C. A. quartet.

Clean-up week has a varied effect, and the latest noticed is in the remodeling of the Katy depot, Eighth and Jackson streets. Repainting, refinishing the woodwork, and general repairing of the building is now under way, to be finished in the next few days. It is planned to make this one of the most modern depots in the state.

In recognition of the Fourth of July, the postoffice will observe the regular holiday on Monday, July 5, by being closed most of the day. One delivery in the business district will be made in the morning and the residence delivery window will be open from 9 to 19 in the morning. Likewise, the stamp and registry departments will be open from 9 to 10.

NEW COLONIAL HILL  
PARK IS DESIRED

MASS MEETING APPOINTS COM-  
MITTEE TO CONFER WITH  
CITY WATER BOARD.

## WOULD ACCEPT SELEY OFFER

Proposition to Utilize Old Reservoir  
Site is Enthusiastically Ap-  
proved at Meeting.

A committee of citizens interested in the proposed park that is to be created out of the old reservoir site at the corner of Eighteenth and Bosque boulevard, to which is to be added property to be donated by W. W. Seley had a meeting at the fire station near the park site last night, and appointed a strong committee to go before the water board at its next meeting and present the following resolution:

"Resolved, that the offer made by W. W. Seley to the city of Waco with reference to making a park out of the old reservoir site on top of Colonial Hill and an adjoining block to be given by him to the people of Waco for recreation grounds, be accepted, and that the city name the park the C. S. Seley park, as a memorial to his father, C. M. Seley, deceased, who was a valuable and highly respected citizen of Waco."

The meeting assembled with former Mayor J. H. Mackey as chairman and James Hays Quarles, secretary. In addition to the citizens of the neighborhood who gathered at the Colonial Hill fire station, there were present also Sam Quay, superintendent of the Waco water works, and Ed L. Fulkerson, secretary of the water commission. Judge John N. Lyle made the first talk. He brought out the strong points in the matter, saying in part:

"This old reservoir site is the property of the people of Waco. The taxpayers voted bonds to buy it from the Waco Water company, a private corporation. The city government decided to meet these bonds and the annual interest thereon by the sale of water. So, every resident of Waco that is paying the water department for the water he or she is using is a part owner of this ground whether he has taxable property in the city limits or not."

"As it was a part of the property of the water works bought by the city, it naturally went into the hands of its water department. The water department has abandoned the use of it, and those who favor converting it into a park, are simply asking that the people's property be transferred from one city department to another. That is, from the water to the park department. It is no longer used for supplying the city with water, and they ask that it be put to supplying them with pure, fresh air, a thing that is as essential to their comfort and health as water."

"The only objection to this change from one department to another, comes from members of the water department, who claim that they should sell the property, and use the proceeds in enlarging the water works. This is natural. As every department is jealous of its interests. But their contention is not wise. In the first place, the city can't make a title of real estate and therefore can't sell. But they may reply: 'We can change the character and get the right to sell.' Let them lay such flattering unctious to their souls, for the people will never be guilty of so unwise an act as to confer by charter authority on their city government to dispose of their real estate."

"Here it is, the property of the people. What will you do with it? You can't use it for supplying water, then let us be wise and use it for what it is, a park. The little park-squares, so beneficial to the comfort and health of citizens in cities of semi-tropical climates, just such as this can be made, are one of the chief attractions of New Orleans. It has them all over town; there is Jackson Square, Washington Square, Lafayette Square, and so on, numerous, until the visitor comes to the conclusion that every prominent man in the world has there a park named in his honor."

"The reasons for transferring this ground belonging to the people from one department to another are many, but I will only mention two: '1. The sixth ward, on whose south border it lies, has no park in all its bounds. This park will prove a boon to that ward. The sixth is the youngest

Yale Honors  
Justice Hughes  
With LL. D. Degree

CHARLES EVANS HUGHES

ward of the city, and in the distribution of parks, has been treated as a stepchild. It is growing as fast, if not faster, than its older sisters, and the powers that be had better stop discrimination against her, or they will hear something more."

"2. Mr. W. W. Seley offers to give the people for their recreation, for all time, a more valuable piece of property adjoining the city will transfer this reservoir site to its park department and make of the two tracts of land a public park. All he asks in return for this valuable gift is that he be given the privilege of naming the park in honor of his father, now deceased. This is a privilege that every old dweller in Waco who knew C. M. Seley, would grant with a shout. He was a magnificent, public spirited citizen, whose memory is worthy of much greater honor."

"Will the 'city fathers' stand in the way of the people getting this valuable gift offered them by Mr. W. W. Seley? I don't think they will. It would be as foolish the water department for the water he or she is using is a part owner of this ground whether he has taxable property in the city limits or not."

"As it was a part of the property of the water works bought by the city, it naturally went into the hands of its water department. The water department has abandoned the use of it, and those who favor converting it into a park, are simply asking that the people's property be transferred from one city department to another. That is, from the water to the park department. It is no longer used for supplying the city with water, and they ask that it be put to supplying them with pure, fresh air, a thing that is as essential to their comfort and health as water."

"The only objection to this change from one department to another, comes from members of the water department, who claim that they should sell the property, and use the proceeds in enlarging the water works. This is natural. As every department is jealous of its interests. But their contention is not wise. In the first place, the city can't make a title of real estate and therefore can't sell. But they may reply: 'We can change the character and get the right to sell.' Let them lay such flattering unctious to their souls, for the people will never be guilty of so unwise an act as to confer by charter authority on their city government to dispose of their real estate."

"Here it is, the property of the people. What will you do with it? You can't use it for supplying water, then let us be wise and use it for what it is, a park. The little park-squares, so beneficial to the comfort and health of citizens in cities of semi-tropical climates, just such as this can be made, are one of the chief attractions of New Orleans. It has them all over town; there is Jackson Square, Washington Square, Lafayette Square, and so on, numerous, until the visitor comes to the conclusion that every prominent man in the world has there a park named in his honor."

"The reasons for transferring this ground belonging to the people from one department to another are many, but I will only mention two: '1. The sixth ward, on whose south border it lies, has no park in all its bounds. This park will prove a boon to that ward. The sixth is the youngest

"If this offer is refused," said Judge McCullough, "we will regret it as long as we live. If it is refused there will attach to those who force the refusal that which I would not like to have attached to my name."

Alva Bryan spoke in favor of the park, and called attention to the growth of the residence section in that part of the city, especially upon the hill, where the park will be located. The resolution as quoted above was then adopted by the meeting, and James Hays Quarles made a motion that a committee be appointed to go before the water commission at the next meeting and urge that the site be set apart for a park, and present the resolution; further, that the committee get up a financial statement showing the amount of money the city pays for contributing every year to the sinking fund of the bond issue that bought the water works property for the city and the bonds that were issued to build the filter plant, with the object of impressing upon the water commission the right of the city to share in the land now owned by the water company and that is of no further use for waterworks purposes.

This motion was adopted, and Chairman Mackey named the following committee: Judge J. N. Lyle, chairman; Judge T. L. McCullough, Alva Bryan, Dr. Horace Ayresworth, James Hays Quarles, Dr. T. M. Smith, C. W. White, R. F. Hyde, Howell McCullough, Ed McCullough, O. B. Wiggins, Dr. G. H. Patten, Dr. R. H. Eames, Dr. C. H. Brooks, W. T. Herrick, Ernest Bouvier, Dr. W. L. Grothwaite, Artemus R. Roberts, Newton Lyle, M. H. Kendrick, H. B. Mistrot, H. M. Minier, John B. Fisher, F. E. McLarty, C. M. Hubby, Horace Bruyere, A. R. McCollum, B. H. Hill, H. W. Carver, C. M. Bain, Harvey M. Richey, A. D. Adams, E. E. Fitzhugh, Sam Hanna, Sam Clayton, John M. Connor, George S. McGhee, Perry Duncan, Ben Clements, Judge E. J. Clark, Harry Bahl, J. J. Durham, Percy Willis and by motion

Mrs. J. K. Strecker  
Beloved Waco Lady  
Answers Final Call

Mrs. Felicia Strecker, wife of John K. Strecker Sr., died at 6:43 o'clock yesterday morning at the family residence, 701 South Sixth street. Mrs. Strecker had apparently partially recovered from a serious illness of several months, but was overcome by excessive heat while attending her flowers last Monday, and never rallied afterward.

The funeral will take place from the family residence at 4:30 tomorrow afternoon, with burial in Oakwood. Dr. E. E. Ingram, pastor of the Central Presbyterian church, will officiate. Service at the grave will follow the burial rites of the Woodmen circle, with officers of Myrtle Grove No. 44 in charge.

The following have been named as pall bearers: Active, H. C. Rohrer, J. P. Bahl, C. C. Hooper, Henry Trantam, S. J. Flood, Adam Weber; honorary, J. L. Keeler, John Maxwell, A. Y. Moorefield, P. M. Allen, W. H. Davis, John B. McNamara.

Besides the husband, Mrs. Strecker is survived by her son, John K. Strecker Jr., curator of the Baylor museum, and chairman of the city democratic executive committee. She was 59 years of age.

Mrs. Strecker was born at Waterloo, Ill., June 21, 1856. She was educated at Monticello seminary, Godfrey, Ill. She was married to John K. Strecker in 1874, and moved to Waco in 1889, since which time she had been a resident of the city.

Mrs. Strecker was an active member of Myrtle Grove No. 44, Woodmen circle, having served the circle in the capacity of banker for sixteen years. She was re-elected to this position by a unanimous vote only a few weeks ago. Mrs. Strecker was also a member of Lillian M. Hollister live No. 12, Ladies of the Maccabees.

Throughout her long residence in Waco, Mrs. Strecker was known for her kindness and many charities which in an unostentatious manner relieved suffering. Her gentle influence was felt by every one with whom she was associated. The sympathy of all Waco goes out to the bereaved husband and son, who feel so keenly the breaking up of the family, closely knit by reason of its very smallness.

New Crippen Store  
Keeps Open House  
to Friends Tonight

J. C. Crippen and Son will keep open house tonight in their new store, corner Eighth and Franklin streets, where they invite all their customers, friends and every one who wishes to see a perfect, modern grocery and market. Refreshments will be served, demonstrators from the National Biscuit company and the H. J. Heinz company will exemplify the excellence of the food products manufactured by their firms, and a cordial welcome will be given all who come.

The new Crippen store was installed to better accommodate the growing patronage of the firm on the west side of the river. The Crippen store at 500 Elm street, East Waco, besides being one of the oldest establishments in the city, is also one of the most up-to-date, and has a patronage that has grown through the years of its existence in Waco to cover the whole city.

Chief among the novelties in modern grocery store and market which will be shown to visitors at the new store tonight is the refrigerating rooms. Two large rooms are provided, for meats and one for fruits and other perishable stuff handled by the store. These are connected with the cold storage equipment of the Big Four Ice and Cold Storage company. The temperature in the refrigerating rooms is kept below zero, with a dry cold that will keep foods in a perfect state.

Contract Let and  
Location Fixed for  
Baylor Grandstand

Members of the building committee of the Baylor Alumni association and the board of trustees of that institution decided definitely on the location of the bathhouse and grandstand on Carroll Field yesterday and work on the excavation for the structure will begin at once. The new grandstand will be erected on the west side of the main diamond and gridiron and will be a few feet further south than the main wooden grandstand that has been on the field for several years. This will give just as good a view of the football games as before and will afford a little better view for the baseball games.

H. J. Ahnsworth has the contract for the erection of the grandstand and bathhouse, which will be of brick, cement and steel, and he has given a bond for the delivery of the structure by Sept. 1. The total cost will be in the neighborhood of \$7,000.

The Frances Beauty Parlors have moved to the Amicable building, room 1009. Mrs. Linnie D. Schuh, the proprietor, invites all former patrons and other ladies to call. Phone New 293, Old 293, for appointments.—(Adv.)

Hosiery and Combs That the Fourth of July Girl Will Wear

HANDSOME TOILET ACCESSORIES.

Do you see the little flags on the ankles of two pairs of the hose illustrated? Well, these are the hose that the patriotic summer girl is going to wear. Butterflies spread their wings upon the pair in the center. The stockings are of finest, purest white silk. The combs illustrated are of tortoise shell. The tops are decorated with brilliants.

## THE KITCHEN CUPBOARD

### COOKING CAULIFLOWER.

FOLLOWING are some cauliflower recipes that may appeal because of their departure from the usual cauliflower preparations:

**Scalloped Cauliflower.**—Carefully clean the cauliflower and soak in cold salt water for thirty minutes. Plunge in boiling water and cook for twenty minutes. Do not boil briskly; let the water just bubble all the time. Drain off the water, grease a baking dish, line with a layer of cauliflower, add a layer of toasted bread crumbs, another of cauliflower, and so on alternately, letting the top layer be of bread crumbs. Over all pour a cup of boiling milk, dot the top with butter and bake in a moderate oven for twenty minutes.

**Spanish Cauliflower.**—Finely chop one medium size onion and a small bunch of parsley. Melt a tablespoonful of butter in a pan and fry the onion until it is brown. Season with celery salt. Blend in one tablespoonful of flour, add a cupful of boiling water and let simmer for half an hour. Carefully clean the cauliflower and boil for half an hour. Drain the onion sauce, add three tablespoonfuls of tomato catsup, drain the cauliflower, turn into a baking pan, pour over the sauce, place in a moderate oven for five minutes and serve hot.

**Cauliflower Croquettes.**—Finely chop cold cooked cauliflower, mix in one small, finely chopped onion, one small bunch of parsley finely chopped, one-half cupful of bread crumbs and one well beaten egg. Carefully mix and mold into croquette forms, dip in cracker dust and fry in deep, smoking fat until a light brown.

**A Delicious Concoction.** Apple gelatin is a delicious concoction that is very seldom tried, although its cheapness and the simple preparation entitle it to a place on the weekly menu. Stew apples until tender enough to be pierced with a straw. Sweeten and flavor with lemon, nutmeg, vanilla or cinnamon. While they still retain their shape place them in a mold. Add enough water to make a pint, add to the sirup half a package of granulated gelatin which has been previously dissolved in cold water and pour over the apples. When hardened serve with custard or vanilla sauce or whipped cream.

There are about 250,000 Jews in the United Kingdom.

## CURRENT EVENTS

### IN WOMAN'S SPHERE

BOTH PHONES 1958.  
KATE FRIEND, Editor

### SIDNEY DAVIS IS HOST FOR HUACO CLUB DINNER

As one of the special courtesies to the Misses Weber of Corsicana and their hostess, Miss Frances Hays, Sidney Davis was host to quite a pretty Huaco club dinner. As Miss Davis were W. B. Hays Jr. and Coman Shear.

### Y. W. A. GIRLS BEGIN NEW PLAN FOR WORK

Beginning with their session last Tuesday afternoon, when Mrs. J. M. Dawson is hostess, the Y. W. A. of the First Baptist church will commence sewing for a Buckner orphan home box. Their first contribution will be aprons, to be followed by other utility garments.

### MISS DAISY KING APPEARS IN CLOSING RECITAL

This evening in the home studio of the teacher, Mrs. Sallie McCullough Ferguson, Miss Daisy King will give her closing piano recital. Assisting will be the Misses Fay Smith, Lucile Bell and May Gladys Speake. All friends of Mrs. Ferguson and these young students are invited. Miss Fay Smith will be presented medal for greatest progress in piano during the now closing term.

### MISS DECCA LAMAR WEST INTRODUCES HER GUEST

Among the many special parties at the Huaco club for Woman's Day, Miss Decca Lamar West was hostess in honor of her home guest, Miss Janie Cleveland of Corpus Christi. Also, on Friday evening, Miss West had dinner guests, and introduced to the club to the dancing cotillion. For the luncheon she entertained the Misses Mable Turner, Dorothy Finley, Doelice Hickman of Bryan, Gertrude Wilson, Clara Knight.

### MRS. ISADORE SEGAL HAS BRIDAL BRIDGE

When the weekly game for the Bridal Bridge formed with Mrs. Isadore Segal hostess, there were welcomed as visitors, Mrs. Mayer of Greenville, with the Misses Desenberg and Nussbaum of Mexico. In the prize award, the favored ones were Mrs. Harry Archbold, Mrs. Isidore Segal and Miss Desenberg. It had been the intention of the club to disband with this game, but Mrs. Friedlander extended invitation for next Thursday which was accepted. At this time, plans for the summer will be decided.

### MERRY MATRONS MEET WITH MRS. MAYFIELD

In consequence of their delightful hour in the new home of Mrs. John D. Mayfield, the very first company she has entertained, the Merry Matrons are each in possession of a jaunty little bonnet cap. This was the provision of the hostess for a contest feature on which Mrs. B. B. Bray won distinction as being the most expeditious. In addition to the Merry Matrons, Mrs. Mayfield welcomed the Mesdames Kopper of Euclid, J. Lennox, John D. Sinclair and Kyle Vick. It was decided to adjourn with this pleasant retrospect until cooler weather.

### MRS. THWING ENTERTAINS WITH MORNING BRIDGE

Within her own home, Mrs. F. M. Thwing of Columbus street complemented three visitors with morning bridge during Friday. These were Mrs. M. Rhinehart of Dallas, Mrs. Aubrey Lee of Coleman and Miss Helen Starkweather of Coleman. After the hour in this fascinating game and the pleasure of newly formed friends, Mrs. Thwing presented her game favors to Mrs. J. J. Behrens and Mrs. Thomas Hewitt, her guests. The Mesdames W. B. Knight, Charles Link, Moore Hays, Richard Lyles, W. N. Viret, Irvin Colgin, and Miss Virginia Rose.

### BRIDGE AT THE HUACO FOR MISS WEBER

Among the several pleasant little bridge parties, Mrs. Buford McWhirter added one in compliment to the Misses Weber who had been her lunch guests at Woman's Day. This was really the long ago pleasant remembrance of Mr. McWhirter who had known the Misses Weber in days before they grew to be the popular society girls that they now are. Mrs. McWhirter presented these with friendly tokens. The head prize to Miss Margaret Gorman and her consolation trophy to Miss Thelma Ashburn. Others within the game were Mrs. Loretta Reeves with the Misses Marian Duncan and Frances Hays.

### PUBLIC HEALTH NURSE COMMITTEES HAVE MET

On Friday morning, the various sections among women's organizations appointed to solicit funds for the maintenance of the public health nurse during the summer months, held a report at the library. This was under the joint supervision of the City Federation of Missionary Societies, with Mrs. W. W. Woodson president, and the City Federation of Literary societies, with Mrs. E. M. Dotson president. The religious, literary and social organizations had been approached. The reports were incomplete, therefore the service was continued until middle July. In the meantime, it is urged that

all be active so that a full complete report can be had. The amount so far pledged is insufficient. The women have worked heroically for this office of public nurse, demonstrated beyond the doubt, a necessity. If Waco is henceforth without a public health nurse, it is not because Waco women have not realized her need and done more than their part towards her maintenance.

### MRS. FISHER HONOREE FOR MORNING BRIDGE

Mrs. Fred Fisher of Austin is spending the heated term with her parents, Dr. and Mrs. Ralph Steiner, out at the Steiner farm. As one of her diversions Mrs. Fisher visited the drive in, with the privilege of introducing Mrs. Fisher who company of bridge playing matrons. The result was quite a pleasant morning with adjournment for Mrs. Witt with Mrs. Fisher and a half dozen, for luncheon at the Huaco club. For her game, Mrs. Witt had three favors, an honor piece, the leading score being made by Mrs. Ludwell Williams, and the consolation cut, which was made by Mrs. Shapley Ross, one of the callers. Several, who did not take a hand, made late arrival. Those who enjoyed Mrs. Witt, her honoree and the pleasant game were the Mesdames W. P. Killingsworth, Pearl Lovelace, Leslie Stegar, Shapley Ross, Ludwell Williams, Walter Lacy, W. S. Witte, Albert Clifton, Percy Marshall of Dallas, William Early, A. D. Brinkhoff, Sparky Durham, Wynne, O. Van Wyck, Alfred Abel, W. B. Hays, Keith Watson Matthews, Loretta Reeves, Ed Laughlin, Erwin Clark, Martin Hays, Frank Miller, V. Cross, James Riley, with Miss Anne Risher. In the luncheon party were the Mesdames Lovelace, Williams, Stegar, Cross and Miss Anne Risher.

### MORE THAN ONE HUNDRED OUT AT THE HUACO CLUB

The first of Woman's Day at the Huaco club was pronounced a success, more than seventy were present. The second found more than eighty, and the third more than the hundred. Nothing succeeds like success. By the way, the first afternoon tea, it was impossible to accommodate all the applications for table reservation, and a down town overflow luncheon was the necessity. It is impossible to give a personal report of all who were present, maids and matrons, bridge players and musicians, home women and out of town guests; these made the company. The Mesdames Ben Gray Kendall and Baylis Earle were the special hostesses, and it was their pleasure to give a morning musicale. The very best of the city's talent responded. There were voice, Miss Bettie May Hill in operatic selections, Mrs. Howard Mann in her inimitable negro croonings, Mrs. E. E. Thompson, the latest among the city's appreciated singers, the Mesdames Frank Wheeler and Harold Shear in duet. For instrumental, Miss Margaret Kendall who plays with remarkable expression and Mrs. B. H. Schroeder, the last finished pianist to become a Wacoan. Miss Margaret Fates, the popular juvenile dancer gave variety. As accompanists there were Miss Amelia Lewine and Mrs. Sallie McCullough Ferguson. Each one of the hundred was lavish in expression of enjoyment. The return courtesy from Mrs. Earle and Mrs. Kendall was a center table among the many others, to compliment the performers. To this was added Mrs. Dawson of Kentucky.

About these was a circle testing the capacity of the club rooms, for the luncheon. There were parties within parties, some just a congenial circle of friends, and others in compliment to some out of town visitor. Following the lunch, there was a resolution into bridge parties, or a tete a tete on the veranda, awaiting fresh arrivals for the 5 o'clock tea in the cool of the afternoon. In all, the third Woman's Day at the Huaco club was an unqualified success, thanks to the women who responded for the pro-

### Society Notes

After this week Mrs. J. W. Riggins, with the Misses Riggins, will be in their private home, West Austin avenue.

Are we careful that our ice cream, soda water and cold drink vessels are sterilized and perfectly sanitary? The caution is a wise one.

During the absence of her mother in California, Mrs. Grace Arbuckle of North Twelfth street is the guest of Miss Katherine Mead, Terrace Row.

Cards and letters have come from Mrs. Lurline Moseley Harvey the last postmark bearing Lake Tahoe, California. No mention was made of further plan.

The Misses Weber who were to have returned home to Texarkana with today, are prolonging their visit to Miss Frances Hays for another few days.

On Tuesday Miss Beula Dunham of the South Side is off for Seattle Washington. There she meets her New York voice teacher, and will study until her homecoming with middle September.

Mrs. R. T. Dennis joined E. F. Carroll in the trip of three weeks to Chicago. At Kansas City they meet Mrs. Carroll who has been the early season guest of Mrs. Edward Wheeler at Tacoma.

Kiss your hand to the June bride, for she is now but the fleeting shadow. Mrs. Baylis Earle is matron of the Walter Fort cottage, Washington street until the homecoming of Mrs. Fort from Nashville.

Mrs. Lee Daniel has joined Mr. Daniel for a month at Corpus Christi before their annual trip to Saint Louis.

Following her visit with her mother, Mrs. T. A. Blair, Mrs. Robert Allen is leaving for a sojourn at Galveston.

Miss Hallie Jenkins is receiving some very attractive needlework pieces from the old women's needlework class, taught by Mrs. Annie Jenkins Sales in China. Previously, this work has

By carrier in city of Waco per month .75

Notice to Subscribers.  
Delivery routes in the City of Waco are in the hands of independent carriers, who buy their papers at wholesale prices. Subscriptions accounts are due them, not the Waco Morning News. They are under heavy bond, not only to give the best delivery service, but to pay for their papers each month. Their remuneration is the difference between the wholesale price and the retail price which they receive from subscribers. This margin of profit is such that they cannot afford to extend credit, except month by month. They are not required, and they are advised against, delivering the paper to anyone who does not pay in its being with the above subscription terms. These carriers are all earnest, hard working men and they will appreciate any courtesy shown them.

The Morning News should be delivered throughout the city of Waco by 6:30 a. m., and subscribers failing to receive the paper at that time will confer a favor by phoning the Circulation Department, both phones 1132, and a copy will be sent by special messenger.

Any erroneous reflection upon the character, standing or reputation of any person, firm or corporation which may appear in the columns of the Morning News will be gladly corrected upon its being brought to the attention of the management.

## LINCOLN AND HOME INDUSTRY.

President Abraham Lincoln, whose brain was as big as his heart, was an advocate of patronizing home industries. At least, he is credited with the following language which fits in very nicely with our present-day "Trade at Home" philosophy: "I don't know much about the tariff but I do know that if my wife buys her cloak in America we get the money and the cloak, and that American labor is paid for producing it; if she buys her cloak abroad we get only the cloak; the other country gets the money and foreign labor receives the benefit."

And what Mr. Lincoln said as to buying at home and in foreign countries applies with equal force to the relative merits of buying in Texas and in other states, and, coming nearer home, to buying in Waco and other cities of this state. Since the opening of the European war we have heard much boasting of "Made in U. S. A." goods, and this is a very worthy campaign. We should insist on the United States article where it is possible to get it, provided always, of course, that the home product be equal in merit and price to the foreign-made one.

But now when the manufacturers of this state are trying to foster the "Made in Texas" goods we should insist on the Texas-made article wherever it is possible to use that article to advantage, and of course, the best "Made in Texas" article is that which is "Made in Waco." Largely we are creatures of habit. We usually buy a certain brand of goods because we have been used to buying it. We need to get the habit of patronizing home industries, first these of Waco or the home town, whatever it may be, then those of Texas for such things as are not made in Waco, and finally, those of the United States when we want things which are not manufactured in this state. A patronage of home industries all along the line will give us good goods at reasonable prices and the money we expend will provide employment for our neighbors and all will profit from the rapid circulation of the money among ourselves.

Fort Worth has two men who are under death sentence for murder. Inasmuch as it is used to be impossible to convict a man in Tarrant county it needs to be explained that the attorneys for these condemned men were appointed by the court and were not members of that coterie of defense lawyers of the Panther City whose reputation for defeating conviction in the courts was so wide that it was rumored men used to come to Fort Worth to commit their murders so as to face trial before a Tarrant county jury, and with Fort Worth attorneys as counsel.

From India there comes the information that in certain parts of that country a third marriage is considered unlucky, but the fourth one is not. But the man of India is equal to meet the emergency. When he has tried matrimony twice without success and, desiring to escape the misfortune of a third union, he goes through a ceremony with a bird, or animal, or flower, as the bride in order that his next wife will be the fourth instead of his third trial.

It has been figured out that when the graduates of 1915 at Yale get their diplomas the men will have spent \$1,079,111 during the four years of their university life. The most affluent member of the class spent \$4,500, and the most frugal only \$200 in actual cash during the freshman year.

## A FORWARD STEP.

We are glad to see the authorities of the Agricultural and Mechanical College taking a forward step in their decision to admit mature men to the college to do special work there without requiring them to take military training.

There are hundreds of men in the state who could very profitably take a short course in the college in order to better prepare themselves for their chosen work in life. Teachers may want a special course in agriculture, farmers a special course in crop rotation, soil conservation, animal husbandry and the like; engineers a short course in that line to bring them more nearly up-to-date, road superintendents a course in road-building, and many of these will find the inducement to take such a course much stronger now that the requirement that all students shall take military instruction has been waived.

The college is supported by the taxes of all the people for the benefit of the people. Every effort should be put forth to place the advantages offered by the college at the disposal of every man, woman and child in the state and this new ruling is one step in that direction. We trust and believe that many men will find it to their advantage to appraise themselves of the opportunity thus afforded, for a few months at college would mean much in increasing their professional and economic efficiency and this will in turn greatly promote their happiness and usefulness.

## SIGNIFICANT PROGRESS OF TEMPERANCE.

Entirely outside the jurisdiction of local option, anti-saloon, temperance or prohibition organizations, three important bodies in the United States—one religious, one fraternal and one commercial—have, in a measure, allied themselves with the general movement toward the extirpation of the liquor traffic within the last few weeks, observes the Christian Science Monitor. The first of these to take a stand was the Grand Commandery of Knights Templar in one of the states, the second was the Presbyterian general assembly at Rochester, N. Y.; the third was the convention of the advertising clubs of the world at Chicago. Only the second has acted officially. In both of the other cases sentiment only was voiced. In several of the grand commanderies of the United States, and in the grand encampment itself, opposition to contact of any kind with liquor, or with the liquor interests, has long existed; the grand commandery referred to here simply went farther, and took more positive steps than perhaps any of the others. The advertising men handled the question informally. We have it from a report of the proceedings of Tuesday, for instance, that at the final gathering of all the delegates before the sessional conference "an impromptu discussion of temperance" called out a favorable expression, and we have this statement from Delegate Houston of New York: "The applause given the idea of temperance is significant. These men are in closer touch with public feeling and desires than any other class except newspaper men. They reflect the general state of thought on a grave problem, and conclusions may be drawn from their attitude." It is hardly less significant that the delegate who was so outspoken in his remarks on Monday should have been elected president of this world organization on the following Thursday.

In the Presbyterian general assembly at Rochester action was taken which forbids any minister or elder to give open or secret support to the liquor traffic. There is much more to this than may appear on the surface to the ordinary reader. In the assembly of 1914 there was raised the question of forbidding members of the Presbyterian church from belonging to clubs wherein liquor was sold. This was not put to a vote, but the later action is regarded as a step toward it from a different angle. If such action is taken it will operate finally, it may be presumed, in one or two ways: either it will drive Presbyterians from the clubs in non-prohibition districts or states, or it will compel the clubs, in order to hold a valued section of their membership, to close their bars.

Liquor advertising, considered with regard to the amount of space used and the amount of money paid for that space, has until lately been sought by the large advertising agencies and the great newspapers and magazines of the United States. There are some agencies, some newspapers and some magazines otherwise of good repute that will still take such advertising matter, but the number in each instance is rapidly diminishing. The campaign against liquor in the United States has ceased to be theoretical, sentimental, emotional or perfunctory; it has become moral, economic, patriotic and practical. As a business, liquor making and liquor selling, in the popular view, is becoming daily more reprehensible, no institution, no trade and no profession that looks, and must look, to popular approval for success can long afford to give open or secret support to the traffic.

## THE TEXTBOOK BUSINESS.

Greatly exaggerated ideas prevail concerning the total number of textbooks sold in the United States each year and the annual profits resulting from such sales. Confidential data obtained by the United States Bureau of Education from forty-three textbook publishers in the United States show that their aggregate total sales of textbooks for use in public and private schools in 1913 amounted to \$17,274,030. The aggregate for public schools, elementary and high, amounted to \$14,261,768.

The total enrollment in public elementary and high schools for the year was approximately 18,609,040. Excluding the elementary school enrollment of California, since California prints its own elementary books, the number becomes 18,213,786. For each child enrolled in the public schools in the United States, therefore, the total annual sale of textbooks is 73.3 cents. The total expenditure per child for all school purposes is approximately \$38.31. The cost of textbooks is thus approximately 2 per cent of the total cost of maintenance, support and equipment. The cost per child on the school population basis (5-15 years of age) is 56.6 cents; the annual per capita cost of textbooks on the total population basis is less than 15 cents.

These figures indicate that there is little ground for the fear sometimes expressed that the introduction of free textbooks will add greatly to the cost of the public school system and will greatly increase the rate of taxation for school purposes. As a matter of fact the cost for textbooks is a relatively small item in the total expenditure for school purposes.

Bureau of Education officials feel convinced that the figures obtained afford a trustworthy statement of the real facts about the size of the school book business. The forty-three firms from which data were obtained handle probably 95 per cent of the total textbook sales in this country. Besides California, Kansas also now prints its own textbooks, but the plan was not in operation in 1913.

The Society of Those-Who-Hoped-to-Be-June-Brides is alarmingly large, observes the Tampa Tribune.

Cut the weeds, swat the fly and smite the ignoramus who undertakes to buy you about the cool weather we are not having.

Wisconsin is strictly up-to-date, having just engaged an aviator to hunt forest fires so they can be put out before spreading extensively.

According to the federal census, the increase in wealth in the United States from 1904 to 1914 amounted to \$1,965 per capita. Have you got your share?

A gentle tip to the June brides of 1915: The society notes of Kansas exchanges observe that no real lady will trim her corns with her husband's safety razor.

Lord Kitchener may have spoken more wisely than he knew when he said the European war would continue for eighteen months and possibly three years.

July brides should not fear to take a bath just because George Joseph Smith murdered three brides while they were thus engaged. All of his brides carried life insurance.

Word comes from New York that 1,000 professional and business men of that city are going to take their vacation this year in a military camp, receiving regular instruction from army officers.

An exchange observes that while it is not openly advocating the change, a good many women could make themselves more companionable by chewing tobacco with their husbands instead of chewing the rag.

The average husband of today ought to thank his stars that he is luckier than Harry K. Thaw. In addition to being free from the insane asylum, he is saved the embarrassment of his wife telling in court all the mean things she knows about him.

A Fort Worth man suicided because his girl broke a picnic engagement with him. Well, a man who will take a light thing so seriously would doubtless have taken the more serious obligations of life rather lightly.

There are still living six descendants of Victor Hugo, two grandchildren and four great-grandchildren. The income from royalties on Hugo's works still amounts to \$10,000 a year. It amounted to \$200,000 in 1884.

The Austin Statesman has forsaken the morning field and will confine itself to the afternoon field hereafter. It recently absorbed the Austin Tribune and the afternoon paper will be known as the Statesman and Tribune. The first issue of the new afternoon paper looks like a winner.

## MARLIN POSTOFFICE RECEIPTS FALL OFF

PUBLIC HEALTH MEETING PLANNED BY FALLS COUNTY MEDICAL ASSOCIATION.

Physicians Being Criticized for Failure to Turn in Reports of Births.

Marlin, Tex., July 2.—A comparison of the receipts at the Marlin postoffice during the past three years shows a slight loss during each of the two fiscal years of 1913 to 1914 and 1914 to 1915. In the year ending in 1913, which is taken as the banner year of the office, from the standpoint of cash receipts, the total receipts reached the sum of \$14,998.59, while it dropped in 1914 to \$14,567.60. For the year just closed another drop of a little over \$400 was experienced, the total receipts amounting to \$14,143.13.

Postmaster Ottorf accounts for the loss this year through the general business depression, which called for a spirit of economy on the part of the business public as well as the lessening of the number of visitors coming to Marlin, which is generally a source of considerable income to the office.

Physicians Criticized.

Marlin, Tex., July 2.—Falls county physicians are receiving much criticism on account of the report published stating that only 45 births had been reported in this county during the eight months ending June 30, when the lowest estimated figures on the actual births that would be expected made during one month in the last eight years, since the police court was located in the present building, Ross avenue and Market streets.

Plan Public Health Meeting.

Marlin, Tex., July 2.—The Falls County Medical association will meet in Marlin Monday, July 5. An effort will be made to arrange for a public health meeting to which citizens of the county will be invited. Preventive medicine or measures will be discussed.

Wacoans in Marlin.

Marlin, Tex., July 2.—The following Waco people are registered at Marlin hotels: J. N. Dowell, R. H. Griffin, Hugh L. Stewig and D. E. King.

## John Dyer of El Paso Heads Texas Lawyers

San Antonio, Tex., July 2.—John Dyer of El Paso, as president, and Frank C. Jones of Houston as vice president, were elected by acclamation at the morning session of the Texas Bar association. John W. Kincaid of Dallas was re-elected secretary and Railway Commissioner W. D. Williams was made treasurer. The new body, composed of C. K. Lee, Fort Worth, chairman; Cecil Smith, of Sherman, Claude Pollard of Kingsville, W. C. Morrow of Hillsboro and James D. Walther of Dallas. The annual banquet took place tonight.

Nursery Inspectors Gather.

Austin, Tex., July 2.—In order to promulgate an systematic campaign of the state, fifteen nursery inspectors have gathered at the call of the state department of agriculture in this city. They will remain in session before Chief Nursery Inspector Ayres for several days, and will then go to the various sections of the state. The new nursery laws will be discussed and several important bulletins from the department at Washington will be discussed.

Implements to Be Exhibited.

Austin, Tex., July 2.—Upon consideration of the numerous requests from agricultural implement houses, it has been decided by the state commissioner of agriculture to allow exhibits of agricultural and farming machinery at the meeting of the farmers' institute of Texas to be held in Austin on July 27-28. Several large manufacturers have already announced their intentions of sending exhibits.

Gov. Ferguson Back in Austin.

Austin, Tex., July 2.—Governor Ferguson arrived in Austin early today from East Texas where he has been delivering speeches at fairs and other gatherings. He expects to leave today for Carrizozo Springs, where he will be the principal speaker at a Fourth of July celebration and barbecue to be held on Monday.

New Judge Is Appointed.

Austin, Tex., July 2.—Ben M. Terrell of Fort Worth was today named district judge by Gov. Ferguson to succeed Marvin M. Brown, resigned, from the Tarrant county district court.

Temple Postal Receipts Less.

Temple, Tex., July 2.—The receipts at the Temple postoffice for the month of June show a heavy decrease as compared with the same month of last year and same is attributed to the fact that the summer vacation of Governor Ferguson for nomination was at its crest and there was an extraordinary expenditure for postage on that account. The exact amount of the decrease is not known, but the postmaster states that he will give out a statement very soon. The past month ended the government's fiscal year. The Temple office was advanced from the second to the first class on July 1.

Building Power Line.

Temple, Tex., July 2.—Work of constructing the high power transmission line for the Texas Power and Light company between Waco and Austin is progressing rapidly, crews being at work out of Temple in both directions. The wire will be large enough to carry sufficient voltage for the operation of trolley cars between the two points should the occasion ever arise which is deemed likely within the next twelve months. The new line will also serve a number of smaller towns along the route that are now without lighting and power facilities.

Pool Halls at Temple.

Temple, Tex., July 2.—Since the publication of the decision of the state supreme court relating to operation of pool halls, several have been opened in this city and the opening of others is in contemplation. Just what attitude the county authorities will assume in the matter has not as yet been indicated.

Track Proves Poor Pillow.

Dallas, July 2.—When rain drove Zeona Gonzales from the top of a box car where he was sleeping at the Rock Island railroad yard of Irving, he tumbled underneath, and pillowing his head on the rail, went to sleep again. A switch engine came for the car at dawn and Gonzales was beheaded by the wheels without ever awaking.

## A ROMANCE OF OUR TIME.

And One That Outdoes the Arabian Nights Tales.

The latest story about the Ford Motor company reads more like one of Scheherazade's fairy tales to her blood-thirsty Sultan Schahar than like a prosaic statement of modern business. Indeed it eclipses the Arabian Nights romances, for even if the Asiatic imagination never pictured such a vision of wealth as this that is spread before the eyes of Detroiters.

Fancy nor history has approached the marvel of the Ford growth. From nothing an idea in the brain of one man has developed into the tangibility of industrial buildings to which no genie-built palaces can compare, of seigniorial estates, of vast and intricate mechanical plants, of world-wide employment for thousands upon thousands of people, of money in stored cold cash beside the pile of which the fabred treasures of Croesus would be an ant hill, of luxury for some and of new convenience for the multitude.

And all this has grown up before the sight of those who have lived in the city of Detroit a mere dozen years or so. What former romance of quick fortune rivals it? No other business ever came to such dimensions before in twelve, or five times the period of its duration. If, indeed, any other business in the records of the world has at any time come to the prodigious luxuriance of the Ford concern. It is a dream, surely, we shall be waking up one of these days and returning to the humdrum routine of life with a sigh for the wonderful things we have gazed upon in our sleep.

Sixty million dollars is the measure of the accumulated assets. Twenty-seven million dollars is in the banks in cash. The balanced accounts show a surplus of nearly \$20,000,000. What incomes-

hensible sums they are. And twelve years ago not a dollar of it all existed; nothing but an idea, perhaps even it then still unborn.

One hears sometimes a saying, common enough among certain classes of people, that "all wealth is created by labor." It has just enough truth to be glittering. How much of the Ford wealth was created by labor? The labor would have been here, there or somewhere else in the United States or Europe, if Henry Ford had never lived, and it would have been applied to occupation of some kind, but it would not have accumulated these millions of money and property. It takes more than toil to produce capital. The fertile mind of someone to invent, the executive genius of someone to direct, these and other ingredients enter into the creation of wealth, and without them labor would today be housed in caves and its most intelligent application would be the churning of animals for food. Detroit Free Press.

## New Military Movement.

He had only just received his commission, and was still horribly nervous when in charge of his men. One day he was marching them across some fields and all went smoothly until they arrived at a very narrow gate in a high hedge. The gate was only wide enough for the soldiers to pass through in single file, and our young officer, in his nervousness, could not remember what order to give to get them into this formation.

"Halt!" he commanded. "Stand at ease! Stand easy!" They stood easy. "Fall out, get through that gate, and fall in again on the other side of this hedge!"—New York American.

## Business Men of Y M C A to Meet in Open This Summer

With last night the business men's team of the Y. M. C. A. met out in the open in place of in the gym room and will continue to meet in the tennis court adjoining the Y building for the remainder of the summer, as it is much cooler and more pleasant than in the building. The business men's team meets every Tuesday and Friday night at 8:15, when volleyball and other gym games are played. This team is among the most popular of all the teams, as it relaxes and refreshes the men who have been at their offices and desks all during the day.

Physical Director E. W. Conway will start the swimming classes in the Y. M. C. A. pool Monday and will give lessons in all the strokes in popular fancy and plain swimming. Mr. Conway is a master of the swimming art, and is an expert in all forms of swimming. Beginners' classes and advanced classes will be given. Swimming from the very beginning will be taught, and the initial strokes will be given to those who can not swim at all. For

the more advanced swimmers the fancy strokes in swimming and diving will be given. The pool is absolutely sanitary and is cleaned thoroughly twice each week and is disinfected every day. The water is constantly watched by the physicians of the association. No extra charges are made for any class work in the Y. M. C. A., and the swimming lessons will also be free to the membership.

## Dean Kesler Tells of Chicago Meeting

Dean J. L. Kesler of Baylor university, about the last of the Ad club delegates attending the Chicago convention to return, spoke on the recent meeting of the Ad club yesterday morning in Carroll chapel, giving some of the experiences of the various delegates and of what he saw and heard on his trip, and delighted his audience by the review of the meeting.

He spoke of the convention as highly worth while and of it bringing together some of the foremost advertising men in the United States, for an exchange of ideas in the art of progressive advertising.

## ATTEMPT TO ABOLISH BOARD IS A FAILURE

DOLLINS BLOCKS THE MEASURE TO PLACE OAKWOOD UNDER CITY'S CONTROL.

### MOVING ORDINANCE PASSED

W. G. McCrary Opposes—City Police-men Will Wear Palm Beach Suits on Duty.

#### WHAT THE CITY COMMISSION DID

Failed to take decisive action on the recommendation of Mayor Riggins that the ordinance vesting the control of Oakwood cemetery in the Oakwood cemetery association be repealed.

Passed the ordinance requiring moving and transfer men to report all transfers of household goods, furniture and pianos in the city.

Voted to allow city policemen to wear uniforms of gray Palm Beach cloth during summer.

Signed contract with Providence Sanitarium.

Authorized a repair of fire alarm system.

By a tie vote, broken by Mayor Riggins, referred back to the mayor the proposed contract with the local teamsters' union. Commissioners Dunker and Dollins favored signing the contract in its present form.

Discussion of the ordinance brought in by request of the mayor to repeal the ordinance passed in 1875, by which control of Oakwood cemetery was vested in a cemetery board composed of women, came to a rather indefinite conclusion, with no decisive action on the mayor's recommendation for repeal, at the meeting of the city commission yesterday afternoon.

Objection of Commissioner Dollins to repeal was the obstacle that kept the discussion up into the air, from which it only dropped when Secretary Davis called the next order of business, the cemetery matter having been allowed tacitly to pass.

Vote on the repeal ordinance on its first reading was being taken, when Commissioner Dollins voted no, explaining that no time had been allowed for consideration of the measure. The repeal ordinance was passed to its second reading, upon motion of Commissioner Richards, who stated that he was willing to allow the ordinance to go over a week on its third reading, if Mr. Dollins wished.

#### Dollins Favors Amendment.

In the discussion which ensued, Mayor Riggins stated his purpose in asking repeal of the ordinance to be to avoid the prohibition against using part of the endowment fund of the cemetery for upkeep and improvements. The mayor said that the cemetery board, under the creating ordinance of which appeal was sought, was allowed to use only the interest on the endowment fund for improvements. He said last year the maintenance account of the cemetery had shown a deficit of \$755, in spite of the fact that very little work was done. He stated that a man to be of the cemetery at present was a disgrace to the city, and that the repeal was designed to aid the cemetery board in a dilemma.

Commissioner Dollins replied with the statement that such authority as the city might possess under a repeal of the ordinance could be delegated to the cemetery board by amending the present ordinance, and eliminating the prohibition against using part of the fund for upkeep. City Attorney John Maxwell, asked by Commissioner Dollins, stated that any authority which the city might possess under a repeal proposed by the mayor could be delegated to the cemetery board, and still leave them in control of the property.

#### Final Vote Not Taken.

Commissioner Cockcroft's motion that the repealing ordinance be finally passed was not seconded. Commissioner Dunker stated that he was not inclined to force the ordinance over Mr. Dollins' vote at that meeting. Mr. Dunker also stated that he was not satisfied with the measure left to the city to dispose of the funds of the cemetery in case they should come under control of the commission. City Attorney John Maxwell having stated in answer to the question, that the management of the city would have to be invested in bonds.

While no definite action to that effect was taken, it is expected that the repealing ordinance in its present form will be called up again at the next meeting of the commission.

#### Palm Beach Suits for Cops.

Waco policemen will be clad in cool Palm Beach uniforms during the summer, with straw helmets of the same color, as the city commission has voted to allow the wearing of the cooler uniform in summer, stating that this was becoming the practice of all cities. A sample suit of the kind which will be worn by policemen was inspected by the commissioners, being furnished by a local department store. The uniform will be of dark gray Palm Beach cloth, with regulation brass buttons and braid. A light straw helmet of the same color will be worn.

Selection of the uniforms and other arrangements were left in the hands of Chief of Police Guy McNamara. The new uniforms will be made and delivered within the next few days.

#### City's Thanks to Mrs. Rotan.

An official letter of thanks from the city government to Mrs. K. A. Rotan for her care of the Old Waco springs and park on the bank of the river near the west end of the suspension bridge will be written by Mayor Riggins, being authorized yesterday by the commission. Mayor Riggins stated that in company with Mrs. Rotan he had visited the spring park, where he was amazed at the results of the care given the spot by Mrs. Rotan for the last several years. The mayor expressed his belief that the work of Mrs. Rotan in this particular was one of the most unselfish and patriotic that has been recorded in the city. In a letter to the commission received at the last meeting, Mrs. Rotan asked the city to take charge of the park and care for it in the same manner that other city parks are cared for.

#### Moving Ordinance Passed.

The ordinance requiring movers of furniture, pianos and household goods to report names of persons for whom, and places to which moved was passed finally, after a debate between C. C. Lewis, representing the Retail Merchants' association, at whose instance,

the ordinance was brought in, and W. G. McCrary, proprietor of the Moving Transfer company, who opposed the ordinance on the ground that it would be an unfair burden to the transfer man, as well as compelling him to expose his business for another man's benefit.

Mr. McCrary said that the ordinance without a license requirement would not prevent outsiders from moving persons without reporting, and would be unfair to firms with a large investment in teams and wagons. He said that if the grocers and butchers wanted to find out who was being moved by him, they should send a man to his place of business, where his books would be open for inspection. He said that in his business making out the reports required by the ordinance would require two hours a day. In the vote of the ordinance Commissioner Richards voted "no."

Commissioner Dunker requested the city attorney to bring in an ordinance requiring a street license for moving vans, following the suggestions made by Mr. McCrary.

#### Changed Word Blocks Contract.

The proposed contract between the city and the local teamsters' union was referred back to the mayor for consideration, the mayor's vote breaking the tie. Commissioners Dunker and Dollins voting no. The two commissioners favored signing the contract in its form as presented.

Mayor Riggins stated that one word in the contract had been changed since approved by him. The employment

clause of the contract read that the city bound itself to employ only members of the union whenever possible. Mayor Riggins stated that the commission had authorized him to change the word "possible" to "practicable," and that the union men had agreed to this change. Commissioners Dunker and Dollins claimed that another clause inserted which made the foreman in charge of the work the judge of the competency of an applicant made this change unnecessary.

Commissioner Dollins moved that the mayor be instructed to sign the contract. Commissioner Cockcroft previously moved that the matter be referred again to the mayor, but his motion had not been seconded. After Mr. Dollins had made his motion Commissioner Richards seconded Mr. Cockcroft's motion, which was put by the mayor. The vote stood Cockcroft and Richards aye, Dollins and Dunker no. The mayor's vote decided that the contract should again be referred to the mayor, who stated that he did not propose to sign the document unless the word "practicable" was inserted in the place of "possible." It is understood that the union representatives will not agree to this substitution.

#### Commission Notes.

The official invitation of the city of Waco to the Texas Police Chiefs' and City Marshals' association, soon to meet in Fort Worth, to hold their 1915 meeting in Waco, was extended by the commission, upon motion of Commissioner Richards.

City Electrician Copley was authorized to buy materials to the amount of \$735 to be used in repairing the present city fire alarm system.

A leave of absence of five weeks was granted to Commissioner Richards, who will leave Monday with his family for a vacation in California. Mr. Richards said that while absent he would visit some of the sewage disposal plants in California, Oregon and Utah, and report to the commission on his return, in view of the fact that a sewage disposal plant must soon be built by the city.

Upon motion of Commissioner Richards, the petition of residents of West Austin avenue that two night watchmen employed by them and now being paid by subscription be put upon the half-pay list of the city police department, was refused. The two watchmen are former members of the police force.

## Y M C A to Give Sunday Programs At Crystal Theater

Beginning Sunday, July 11, the Y. M. C. A. will have the use of the Crystal theater every Sunday afternoon in which it will give popular programs, the programs to consist of speaking, music and other entertaining features at the different meetings. The use of the building has been generously allowed the association by J. A. Lempe, manager of the Crystal.

Different speakers will be secured by the association, some of them among the most popular in the state in the work of the Y. M. C. A., and recognized as the foremost speakers in the state. Some of the speakers will be preachers and some laymen, but all well worth listening to and instructive. The musical programs will be largely by local talent.

## July Clearance Sale At Sanger Brothers Starts This Morning

A full page advertisement on the last page of this morning's News announces the opening feature of the annual July clearance sale at the Sanger store. The sale starts this morning. In all other departments except those advertised in this paper today, the sale will begin on Monday morning. Low prices on carpets, rugs, matting, drapery materials and other goods carried in the third floor departments; on women's suits, dresses, skirts, waists, petticoats, children's dresses and other apparel; muslin underwear, infants' wear, corsets, millinery and other merchandise carried on the second floor, also low prices on silks, parasols, wash fabrics, staples and domestics, hosiery, gloves, lace, embroidery, jewelry, art goods, handkerchiefs, ribbons, notions, cut glass, silver, stationery, toilet goods, shoes and the many other lines carried on the first floor. In fact, every department presents the highest class merchandise at the lowest of low prices. The prices from the departments named above will appear in Sunday's paper with full details.

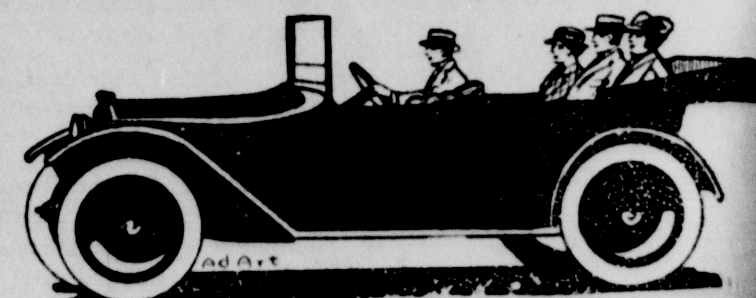

The Sanger store will remain open all day Monday. Contrary to the usual custom, the Sanger store will not close Monday to celebrate the Fourth of July, this being due to the fact that the great July clearance sale commences on that day and it is customary for many out-of-town people to attend this great sale each year and the management feel that it would not be practical to close under the circumstances.

In speaking of this fact last night, a member of the firm said: "We feel that in view of the expressed and practiced policy of the Sanger store as regards closing on practically all holidays throughout the year and the fact that this store inaugurated the Friday half-holiday opening as well as the fact that our general policy is at all times to make the working hours of those engaged in the store as short as possible, that there will be no unfavorable comment concerning our keeping open Monday, on account of our July clearance sale."

## WAGO DOWNS BUFFS IN FINAL ROUND

WALTERS AND CONWELL DELIVER PINCH BLOWS IN NINTH THAT BREAKS TIE.

## SAGE IN UNBEATABLE FORM

Pat Newnam Chalks Up Only Marker When He Drives a Homer to Club House.

Houston, July 2.—With Tanner on second and two out in the ninth, Edmondson walked James purposely. Walters and Conwell came through with singles, however, and Waco won 2 to 1. The game was one of the prettiest of the year and replete with hair-raising fielding plays and tight pitching.

In the second inning James singled and Walters bunted in the air to Edmondson. James took second on the wild pitch, but was thrown out at third on Conwell's grounder to Summers. Wohlleben tripled to center, scoring Conwell, and Grubb grounded out.

With two out in Houston's half of the same inning, Newnam drove a clean home run to the club house, tying the score.

In the ninth Tanner was safe on Summers' error and Conwell sacrificed. Grubb fled out to left. James was walked. Walters hit the first ball pitched to left, scoring Tanner. James went to third and Walters to second on the throw in. Conwell singled to right and James scored, but Walters was thrown out at the plate. These two runs were enough, as Sage pitched airtight ball in the last frame for the Buffs. The score:

The Score.

By innings—  
Cincinnati.....000 000 000—0  
St. Louis.....100 000 02—2  
Two-base hit, Groh. Double play, Herzog to Mollwitz. Bases on balls, Meadows 3, Toney 1. Struck out, by Meadows 5, Toney 6. Umpires, Arth and Rigler. Time, 1:18.

## CHICAGO 2, PITTSBURG 1.

Chicago, July 2.—Chicago bunched hits today and defeated Pittsburgh 2 to 1. The single, a sacrifice and Sailer's Texas leaguer produced the winning run in the ninth. The score:

Pittsburg	AB	R	H	O	A	E
Coxey, lf	3	0	1	2	0	0
Collins, cf	3	0	1	2	0	0
Baird, 3b	3	0	1	0	0	0
Hinchman, rf	4	0	0	2	0	0
Wagner, ss	4	0	0	2	2	0
Viox, 2b	2	0	0	2	2	0
Johnson, lb	3	0	1	1	2	0
Williams, c	3	0	1	1	0	0
Harmon, p	3	0	0	0	2	0
Totals	28	1	5	25	15	0

By innings—  
Chicago.....000 100 000—1  
Pittsburg.....000 000 000—0  
Stolen bases, Baird, Carey. Bases on balls, Harmon 2, Pierce 6. Struck out, by Pierce 6, Harmon 4. Umpires, Klein and Emalie. Time, 1 hour.

## Pirates Are Victims of Lowly Gassers

Galveston, July 2.—Baerwald's single and Tarterton's double after two were out in the ninth tied the score, but in the twelfth Baerwald dropped Durkin's high fly and McLeod tripled to the centerfield fence, winning a 3-2 victory for the Pirates over the Senators. The score:

Shreveport	AB	R	H	O	A	E
Recker, cf	6	1	2	2	0	0
Kneaves, ss	4	0	3	3	5	0
Schneider, 2b	3	1	0	18	0	0
McElvren, 2b	0	2	2	2	0	0
Barr, lf	4	0	2	3	0	1
Speer, rf	4	1	1	2	0	0
S. Smith, c	4	0	0	2	0	0
Toland, 3b	2	0	0	4	0	0
Durkin, lb	4	0	0	1	4	1
McLeod, p	5	0	1	0	5	0
Totals	40	3	11	36	22	2

By innings—  
Galveston.....000 000 000—0  
Shreveport.....000 000 000—3

McLeod 4. Hit by pitcher, by McLeod (Smith, Baerwald). Left on bases, Galveston 7, Shreveport 7. Time, 2:20. Umpires, Wright and Gardner.

## BARRY SOLD TO RED SOX.

Boston, July 2.—Jack Barry, shortstop of the Philadelphia Athletics for several years—part of the famous million-dollar infield—was sold to the Boston Americans today. Of the great infield defense of the old Athletics only Melvin, first baseman, remains.

## Sound the cymbals for two kinds of independence joy!

Rip things right up the back on the Fourth! Because it's the nation's birthday, and because Prince Albert tobacco has set free men who yearned for the joys of jimmy pipe "packing" and real cigarette makin's—and who shied at tortured tongues and throats! Bang-away like it's freedom's frolic!

Kick-off the covers early. Let the orators pump patriotism into your spirit while you puff P. A. into your smokeappetite! And keep on puffing "P. A. forever" because it's the happiest, the truest tobacco you could wish to jam in a jimmy pipe or roll into a cigarette! The patented process fixes that! And removes the bite and parch! It'll be a regular celebration, via

## PRINCE ALBERT

the national joy smoke

Open up a toppy red bag of P. A. (mighty handy for rollers) or a tidy red tin, like it was a package from home, then you'll know why men smoke Prince Albert and boom Prince Albert from one land's end to the other! Get that independence spirit on the tobacco question!

So, unlimber your jimmy pipes or makin's papers—and fire away! Because, men, Prince Albert will put new ideas of tobacco goodness into your system. Just write it down in your little diary, "Today I started smoking Prince Albert." This is the joy's time to become pals with P. A. and declare yourself for smoke happiness!

A nickel buys Prince Albert in the toppy red bag, 10c for the tidy red tin. P. A. is also sold in hand-some pound and half-pound tin humidors—and in that classy pound crystal-glass humidors with the sponge-moistener top that keeps the tobacco at the high point of perfection—always!

## ROSEBUD GOING AT FAST CLIP.

Clifton, July 2.—For the second time in two days, the Rosebud baseball team demonstrated its superiority over the Chilton aggregation so decisively that no question can be raised as to the selection of the best team in this section of the country.

As on the preceding day, Rosebud went after the Chilton twirlers with a grim determination to smother them under an avalanche of healthy wallops, and they accomplished their purpose. Twelve long drives were secured off the Chilton talent which materialized into eight runs, while the best the locals could do was to gather only four scraps of safeties for one run. Rosebud's all-around brilliant fielding characterized the runaway contest, and especially did Outfielder Stubbs distinguish himself by wonderful hitting and ground-covering. Chilton erred four times, and did not in any way play the game she is capable of showing. Rosebud has already won both games of the series and plays the last one here to-day. Many fans in this town regard Rosebud as one of the best amateur clubs in the state and are confident that she will win more glory on the diamond in the future, if given the chance.

Batteries for yesterday's game: For Rosebud, Munch and Nabors; for Chilton, Kauff and Stewart.

## KAUFF SUES GIANTS.

New York, July 2.—Benny Kauff, the crack outfielder of the Brooklyn Dodgers, upon hearing that he could not play with the New York Nationals, began a suit in the supreme court of Brooklyn today for \$5000 against the National Exhibition company, owners of the Giants, which he claimed was promised when he jumped to the New York Nationals last April. Kauff says he was to get \$5000 for signing a three-year contract, and that he was not allowed to play, he claims, does not cancel the contract.

The Brooklyn Federals today gave pitcher Lafitte, Catcher Leslie Pratt and infielder Dave Howard a ten-day notice of their release.

## Safety Razor Blades
